## INSIDE Founder's Day Tab Inside

Take a nostalgic trip back in time as we reprint stories and photos from *Zephyrhills News* writers and photographers of previous Founder's Day parades and activities. Years were chosen at random to provide our readers, locals and snowbirds alike, with a glimpse of the city's historical celebrations.

## Weather

After a few chilly days and evenings local weather returns to normal for this time of year. For the next few days, temperatures will mostly be in the 80s during the day while dropping into the 60s at night.

## Bay Area Renaissance Festival hopes you'll heed the call

*The 2019 Bay Area Renaissance Festival brings standard favorites and new acts*

By ANDY WARRENER  
News Reporter

Chances are, you've been to the Bay Area Renaissance Festival. It's a spring time staple located across Fowler Avenue from USF in Tampa on the Museum of Science and Industry (MOSI) grounds. Headlining events like the joust and the human chess match have drawn people out of their homes and into their costumes for decades.

Both events will fly in full colors at the festival but the real treats are the stage shows. A media day gave credentialed visitors a sneak peek at some of the shows that will populate microvenues like the Cottage Stage or the Roundworld Stage.

Taking on four shows per day on the human chess board or the jousting list will be falconer Sir Ashton and his Knightwings Birds of Prey. With Sir Ashton during the preview was a Tyrant Hawk-Eagle or South American Black Hawk-Eagle.

Sir Ashton said that it was one of only four living specimens in North America. Being native to the Amazon rain forest, the endangered bird's habitat is threatened. Which is why Sir Ashton

## Get ready to set your clocks ahead this weekend

*The tradition of setting our clocks an hour ahead starts this weekend*

By ANDY WARRENER  
News Reporter

Most people won't have to worry about it. A 2018 Pew Research Center survey found that 95 percent of Americans own cell phones. Those devices as well as computers and laptops update automatically. If you have a clock on your wall or on your stove or microwave, even your car, that might need to be adjusted but at 2 a.m. Sunday morning, most of the country will turn their clocks ahead one hour.

Daylight Saving Time (DST), not Daylight Savings Time is when the United States, with the exception of Arizona and Hawaii sets their clocks ahead one hour, in order to extend waking daylight hours as summer approaches.

Benjamin Franklin is oftentimes, and inaccurately credited with discovering the concept of DST. While Franklin recognized the efficiency of a population waking and working with the sun, he did not directly propose the concept of setting clocks ahead one hour. Franklin did make some predictions about the city of Paris and how much candle wax could be saved if the city woke its citizens at sunrise by the ringing of church bells or even the firing of cannon. Obviously, there was a dose of satirical humor in his suggestion.

New Zealand entomologist George Hudson proposed a two-hour daylight saving shift in an 1895 paper he presented to the Wellington Philosophical Society. Englishman William Willett brought up the concept to Parliamentarian Robert Pearce, who introduced a Daylight Savings Bill to the House of Commons in 1908. The bill failed to pass.

## Cookie sales provide learning experience for Girl Scouts

*Local troops 148 and 243 sell cookies at retail outlets throughout east Pasco and online*

By STEVE LEE  
News Reporter

It's that time of year, so the big question is, "Do you have your Girl Scout Cookies yet?" At least that's what two local troops, their families and friends are asking.

Locally, cookies can be purchased from Troop 148 in Zephyrhills and Troop 243 in San Antonio/Dade City through March 10. The Zephyrhills group consists of high school students while the San Antonio contingent is comprised of kindergartners

through fifth-graders.

The older girls sell cookies the old-fashioned way. As for Troop 243, troop leader Gina Granger said the younger girls are conducting a lot of sales online.

"I'm just amazed at some of the online stuff we did," Granger said, noting that the girls "have to watch a safe video and, of course, parents are helping them."

Another benefit of online sales is that it provides a safe avenue for people to pay by credit card, Granger said, adding, "It's just a good way to reach friends and family who live far away, but want to help the girls."

Troop 148 has some pretty savvy sales girls, like Zephyrhills High School seniors Dale Bower and Alexis Beital, each of whom have dispensed cookies for all 14 years they

► **RENAISSANCE FESTIVAL:** From Page 1A

(Ash Cary) founded the One World Raptor Conservancy, nearly a year ago, to date. The goal of the conservancy is, "to preserve, protect and educate the world about some of the amazing raptors we share our planet with."

Sir Ashton has 22 birds in all and will fly different birds at each show. Sir Ashton said that the Tyrant Hawk-Eagle can fly up to 30 miles per hour and can exert 800 pounds of pressure per square foot with its talons.

The acrobatic show Acrobellum gave a preview next. This troupe of between four and seven acrobats perform gravity-defying lifts and poses and bear the names of the colors they wear. Just Purple, Blue, Pink and little Magenta were on hand for the preview but they foreshadowed bigger feats to come.

A musical interlude provided by the Harpies, really helped evoke the feel of a 16th Century fantasyland. Children and adults can learn simple songs on the harp and can ask questions about the instrument and its history. The 36-string instrument is similar to a piano and tunes from "Twinkle Twinkle Little Star" to "Greensleeves" (which has 17 verses) will be heard during the festival.

Adding some Scandinavian flavor to the festival is the Viking Encampment. Eric and two fellow Vikings emerged from the Rearwood Viking Encampment to reveal some history about the auspicious, yet fatalistic people. Did you know that the word Viking is actually a verb? Viking is an act, synonymous with raiding. Eric revealed that there is an island in Norway called, Vik. Raiders from the Isle of Vik were referred to themselves and were later called, Vikings.

"It later became that any Scandinavians that came on a ship were called, 'Vikings'," Eric said. "Eventually, the name shortened to, 'Vikings'."

Eric explained why Vikings preferred axes to swords.

Vikings did not mine metal. They either found bits of it on land or in bodies of water or they burned massive amounts of peat moss to distill what they called, Bog Iron. They would then melt it down in a clay furnace and pound out the impurities with a wooden mallet. Many more Viking tales and what Eric called a, "plethora of information" can be found in the encampment.

No Renaissance Festival is complete without a bawdy sideshow and this years festival has several. One notable one is Johnny Phoenix and his Danger Box. Phoenix performs magic tricks but is really there to entertain. If you're the type that likes to be dragged on stage to participate in some hijinks, this is the show for you. Phoenix feeds off the audience's energy and drops off-the-cuff jokes that are laugh-out-loud clever. He'll post up at the Gypsy Stage for four shows per day. His final show of the day is an, adults only show.

Pipsy Pinwheel is another comedy act, although her, tricks are not tricks at all. She actually put a nail up her nose and she actually did swallow a sword, all the while entertaining the crowd with her colorful costume and warm energy. She also has four shows per day but on the Seahorse Stage. More magic but more sleight-of-hand than derring-do, Isaac Fawkes sets up at the Roundworld Stage for his quartet of daily shows. He performed a teleporting card trick, again, very bawdy but again, very fun and entertaining.

So come one, come all. King Henry and Queen Katherine Parr invite your to their world. Outside of the jousts, chess matches and sideshows, over 100 artisans fill the festival marketplace to display their handcrafted wares. Dozens of memorable characters roam the village as well.

Themed weekends include: Barbarian Brew Festival, March 9-10; Festival Friday, March 29, has a mask ball and is the festival's school day. Active military, veterans and first responders receive free admission that day.

There are individual and group entertainment packages available, group and corporate discounts and coupons can be

found at participating Subway restaurants and Metro by TMobile outlets.

Advance tickets can be purchase at Circle K stores. For more information visit the festival website at: <https://www.bayarearenfest.com> or call (813) 983-0111.

## WORD FUN

Study the two words on each line to find the ONE letter in the left column that is NOT in the word in the right column. Write the extra letter on the blank space. Then read DOWN to answer this riddle:

**WHAT IS THE BEST DAY OF THE WEEK TO SLEEP?**

TASSEL	___	STEAL	RAPIDS	___	PAIRS
PHONES	___	HOPES	ARTERY	___	TERRY
REOPEN	___	PREEN	PASTRY	___	STRAP
SOARED	___	READS			
GRAZED	___	RAGED			
ETCHES	___	CHEST			

### Even Exchange

by Donna Pettman

Each number contains two different letters. The two answers differ from each other by only one letter, which has already been inserted. For example, the 11th from MASTER (M and S) and MINER (M and E) form the end of the letters.

1. Stock around	I	11. "I, Robot" author	O
2. Discontinue	A	12. Wrench of tools	D
3. Co-announcer	A	13. Warden's watch	-
4. Life work	R	14. Tap to one tape	N
5. Pop for a bubble	B	15. Co-announcer	N
6. Awaits from water	N	16. Cup in Oahu	S
7. Snow	D	17. Restroom	C
8. Engines	L	18. Dot on matter	I
9. Stork	O	19. Small piece of meat	B
10. Zebra's habitat	P	20. Bow cap to use	K

## SALOME'S STARS ★★★★★

**ARIES** (March 21 to April 19) Although you tend to bore easily and leave others to finish what you start, this is one time when you'd be wise to complete things on your own. Then you can move on to something new.

**TAURUS** (April 20 to May 20) Your indecision about a personal situation might come out of those mixed signals you're getting. Best not to make any commitments until you have a better sense of how things are going.

**GEMINI** (May 21 to June 20) A dispute appears to be getting out of hand. But you should be able to step in and bring it all under control soon. Be patient. News about a potential career move might be delayed.

**CANCER** (June 21 to July 22) Career obligations could interfere with important personal plans. But using a combination of common sense and compromise helps resolve the dilemma to everyone's satisfaction.

**LEO** (July 23 to August 22) A stressful situation drains some of your energy reserves. But you soon bounce back in time to finish your tasks and enjoy a well-deserved weekend getaway.

**VIRGO** (August 23 to September 22) This is a good time to throw a party for friends and colleagues, and surprise them with your dazzling domestic skills. You also might want to reconsider that career move you put on hold.

**LIBRA** (September 23 to October 22) A sudden change of mind by someone you relied on could cause a delay in moving ahead with your plans. But those whom you've helped out before are prepared to return the favor.

**SCORPIO** (October 23 to November 21) You start the week feeling too shy to speak up in front of others. However, your self-assurance soon takes over, giving you the confidence you need to make yourself heard.

**SAGITTARIUS** (November 22 to December 21) One way to deal with a pesky personal dilemma this week is to meet it head-on. Insist on an explanation of why the situation reached this point and what can be done to change it.

**CAPRICORN** (December 22 to January 19) The creative Capricorn finds several outlets for her or his talents this week. Also note that while a romantic connection looks promising, remember to allow it to develop on its own.

**AQUARIUS** (January 20 to February 18) You stand out this week as the best friend a friend can have. But be careful that you don't take too many bows, or you might see gratitude replaced with resentment.

**PISCES** (February 19 to March 20) What seems to be an ideal investment should be checked out thoroughly before you snap at the offer and find yourself hooked by an expensive scam.

**BORN THIS WEEK:** Your wisdom is matched by your generosity. You are a person who people know they can rely on.

# STRANGE BUT TRUE

By Samantha Weaver

•It is still not known who made the following sage observation: "The difference between 'involvement' and 'commitment' is like an eggs-and-ham breakfast: The chicken was 'involved'; the pig was 'committed.'"

•Those who study such things say that if you were (for reasons unspecified) to eat the liver of a polar bear, you'd die. The amount of vitamin A stored in that organ constitutes a fatal dose for humans.

•You might be surprised to learn that high-quality opals can be more valuable than diamonds.

•John Tyler, born March 29, 1790, was the 10th president of the United States. He was married twice and had a total of 15 children. These children, collectively, were witness to a surprisingly large swath of American history. The oldest, Mary Tyler Jones, was born in 1815, the year that saw the end of the War of 1812; the youngest, Pearl Tyler Ellis, survived until 1947, two years after the end of World War II.

•The next time you're planning a trip to Indiana, keep in mind that in that state it is illegal to talk behind a person's back or engage in "spiteful gossiping."

•In 1915, the average annual income for a family in the United States was \$687, the equivalent of \$17,088 today.

•In 1889, a magazine called The Literary Digest made the following prediction: "The ordinary 'horseless carriage' is at present a luxury for the wealthy, and although its price will probably fall in the future, it will never, of course, come into as common use as the bicycle."

•Squirrels are wonderful foresters. Every year, thousands of trees grow from caches of nuts and acorns that squirrels forgot about.

Thought for the Day: "An inconvenience is only an adventure wrongly considered; an adventure is an inconvenience rightly considered." -- Gilbert Keith Chesterton

DAYLIGHT SAVING TIME: From Page 1A

Port Arthur, Ontario in Canada was the first city to begin the practice in 1908. The first countries to fully implement DST were the Central Powers of World War I, Germany and then Austria-Hungary, in 1916. It saved, not just coal for energy but kerosene used in street lamps of the time. By 1918, the United States and many other industrialized nations followed suit.

Over 100 years later, we still burn coal for energy but at least we have moved away from kerosene lamps. Today, DST has different priorities, some positive, some negative. One of the criticisms of modern DST is that it puts children catching school buses at a greater risk because it is darker outside in the morning. If your child catches the bus at 8 a.m., it is actually 7 a.m. and darker accordingly. DST during the school year only accounts for part of the school year but concerned parents, especially those whose children who walk to school express concern; which is why the Florida PTA is opposed to the idea.

A 2018 state legislative bill called the Sunshine Protection Act, proposed by Senator Greg Steube of Sarasota proposed that Florida move to a permanent DST and not turn clocks in November. This bill passed the state House 103-11 and the state Senate 33-2 and was signed into law by former Governor Rick Scott. Ultimate

approval rests with the United States Congress and the Federal Department of Transportation. U.S. Senator Marco Rubio of Florida championed the bill in Washington D.C. and even submitted a bill that would have moved the whole country to a permanent DST.

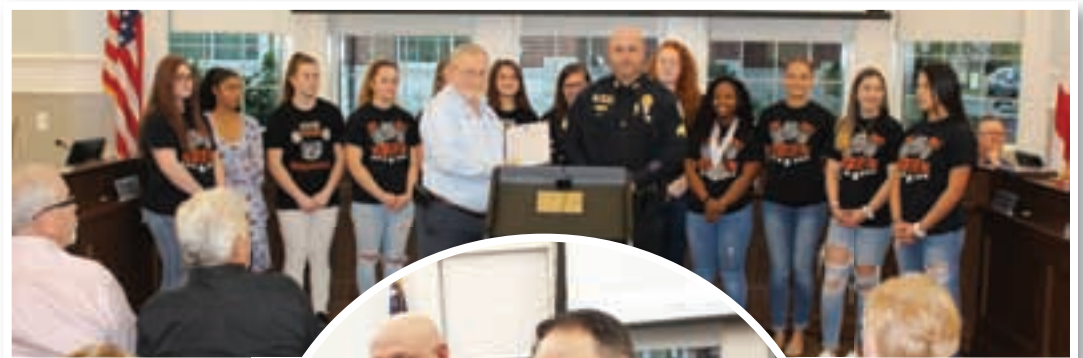

To date, neither the Florida proposal nor the national have even been taken up by Congress. Florida is not alone in the proposal. In November of 2018, California approved a similar measure but again, it has not been taken up by Congress. It seems most rational that either all the states do it or none of them do it.

DST is not without its benefits. A study conducted by the Journal of Environmental Psychology showed a 62 percent increase in pedestrian activity and a 38 percent increase in cycling activity due to daylight hours being extended. Certainly, it would allow for nine-to-five workers to have an extra hour of daylight for recreational activities. Athletic fields will save money not having to illuminate sports fields for as long. Retailers stand to benefit from the extra hour of daylight.

Many fire departments encourage people to change the batteries in their smoke detectors when they move clocks ahead for DST.

For now, we'll keep changing our clocks and enjoying that extra hour of sunshine. Just remember, it's not an excuse to show up an hour late for work.

By JOHN WILKERSON  
News Reporter

Zephyrhills City Manager Steven Spina, presented Frank Rebecky with a key to the city. Rebecky of A. D. Morgan was the project superintendent for the construction of the new city hall. The key was presented for the personal touches he bestowed upon the building. The plaque went on to praise him for his dedication and detail to enhance the overall character for the use of citizens to Zephyrhills for generations to come.

Tyler "TJ" Jones was also recognized for his contributions. A city proclamation praised him for the long evening and weekend hours he worked to assist Rebecky.

"We are awfully proud of this building. Throughout the building process we had the opportunity to work with Frank Rebecky and TJ Jones," Spina said.

Zephyrhills girls weightlifting was recognized by proclamation for their continued efforts for excellence over the past 20 years. The ZHS program won the Class 1A-13 championship title on Jan. 16, the first ever in school

history, and on Jan. 25, they won the region 1A-7 title.

Zephyrhills Mayor Gene Whitfield said, "They did fantastic. Thank you, all of you."

"Today we would like to announce the official retirement of Mako," Zephyrhills Police Chief Derek Brewer announced. Mako, a police K-9 animal joined the force in September 2009.

"He has been Sergeant Joe Rinaldo's faithful partner for over nine years, and he has served the city well."

Mako has reached the age at which K-9 animals are considered for retirement and due to Mako's age, and the fact that he has cancer, it is time for him to leave the force.

Brewer added, "Since canines are the property of the city, we request the transfer of ownership and care of Mako to Sergeant Rinaldo." Sergeant Rinaldo present Mako to the council and as the two left city hall, Mako stopped and played with several children.

This month, the sanitation department began delivery and operation of the automated Z-Carts.

Zephyrhills Public Works Director Shane LeBlanc said, "We are receiving 50 to 65 calls per day requesting information about this new program. We bought 8,000 carts and had about 6,300 of them put out. We are learning little nuances of areas that might of not need a cart."

Residents are reminded to move the cart to the correct pickup place for trash collection. Some areas, such as alleyway pickup, may have had their cart delivered to the front or street side of the property.

Councilwoman Jodi Wilkeson asked, "If it fits in the bin will you take it?"

LeBlanc responded, "Yes, as long as its not hazardous material. You can come along yard waste with normal stuff."

If yard waste is bagged separately, it needs to be placed at least three-feet from the cart. This allows the automatic lifting arm sufficient room to maneuver. The city has one truck capable of lifting the automated carts and plans to purchase another sometime next year.

have been in the girl scouts organization. Bower, along with Beital and Samantha Crist, sold cookies one day last week in front of the Sunoco convenient store at the intersection of State Road 54 and Dean Dairy Road. "I just like it," said Bower, whose favorite cookies are the Samoas. "I like going door-to-door and everyone loves the cookies. Sometimes they're like 'You're too old to be a girl scout.' I tell them 'I'm just grown up now.'" Beital relishes the friends she's made along the way, noting that the camaraderie of selling cookies together. "It's the sisterhood," she said. Benefits of selling cookies listed by the girls include learning to be independent, business skills and money management to name a few. The payouts range from small prizes to trips to other states as well as camping at some in-state locales. Crist, who also is a Zephyrhills High senior, is in her fifth year selling cookies: "This is where I earn most of my money, so I can go on the trips." Her goal is selling 2,000 boxes. She sold 1,478 last year and the next 1,000 will help her

earn enough points to take her mother, Crystal, on a cruise. For Victoria Amidon, a Zephyrhills High senior now in her 11th year selling cookies, the process helped bring her out of her shell. "When I first started I was a little shy," she said. "I like the organization and everything." Purchasing cookies from Amidon and Crist in front of the Walmart off US 301 one day last week were Qua Gilmore, Alexis Holmes and Destin Jackson, all of whom are from the Tampa area and were visiting some friends in Zephyrhills. "My mom always buys them," Gilmore said of the cookies. Troop 148 cookie sellers include: Hannah Sullivan, MacKenzie Morton, Dale Bower, Alexis Beital, Autumn Tinney, Drew Bresnahan, Nicole McLoone, Becca Amos, Samantha Crist, Victoria Amidon and Lexis Parks. Those selling cookies from Troop 243 are: Sophia Valdes, Ivy Fortner, Rachel Catlett, Collette Granger, Gianna Matos, Abigail Phillips, Miley Sommers, Lia Whelan, Gabriella Figueiredo, Sumner Finlay, Anya Makowiecki, Hailey Martin, Jaylene Matos, Sofia Trevino, Mary Albritton, Megan Milam, Quincy Newlon and Amber Spriggs.
