

XPEL ULTIMATE PLUS™ is an 8mil high performance, self-adhesive, clear-coated polyurethane film designed to protect automotive paint, and other surfaces, from harmful effects of stone chips and abrasion. The clear coat employs special elastomeric polymers that allow light scratches in the surface to “heal” over time, eliminating the need for frequent polishing to maintain a just installed appearance while also providing superior optical clarity and a high gloss finish. XPEL ULTIMATE PLUS™ has an ultra-clear high performance acrylic adhesive which has excellent adhesion on a broad range of surfaces, while resisting disturbances during installation. The adhesive is formulated to resist delamination and will not damage paint or leave behind residue if removed.

Paint protection film not only keeps your vehicle safe from road debris and rock chips, but can also protect from light bumps and scrapes, bird droppings, oils and insects. It prevents sun fade, and swirl marks and increases the color depth of your paint. Our film will protect your paint and increase the resale value of your vehicle when you're ready for something new!

·XPEL ULTIMATE PLUS™ PAINT PROTECTION FILM

SELF HEALING

Ultimate Plus has a heat activated self healing top coat that will heal light scratches and swirl marks.

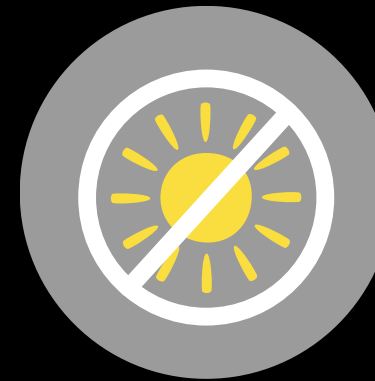

LIFETIME WARRANTY

Our film is warranted for life against lifting, peeling, bubbling, de-laminating and yellowing.

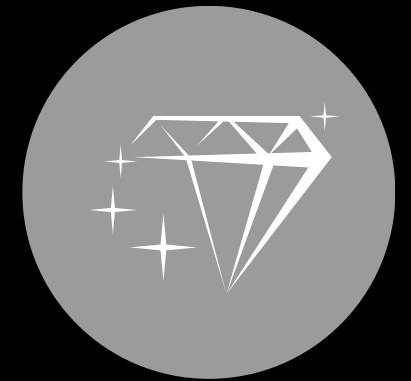

EASY TO CLEAN

With a hydrophobic top coat, our film makes cleaning your vehicle a breeze.

NON-YELLOWING

Ultimate Plus will not yellow from UV exposure.

INVISIBLE FINISH

With one of the glossiest top coats on the market, and superior optical clarity, Ultimate Plus has a nearly invisible finish.
