PROPOSAL: CORPORATE PACKAGES

Introduction

Colonel's Highland Retreat & AstroCamp (District Mandi, Himachal Pradesh) is an offbeat destination owned, managed and run under the direct supervision of a decorated Army Veteran. Perched at an elevation of more than **7200 ft**, the property offers a bird's eye view of its beautiful geographical surroundings. The property's uniqueness lies in being pollution-free, offbeat and amidst raw nature with amazing views.

Our Way of Life

Ours is an **exclusive** niche. It is neither designed nor meant to run like an open, walk-in kind of property. Located amidst green forests, we have taken small, little steps towards care of the natural resources:

- Water harvesting.**
- Zero garbage; plastic bottles and single-use plastic are not allowed.**
- No noise pollution.**
- Maximum use of local resources, including crop produce, milk and helping hands.**
- Use of high-quality stainless steel, including the straws.**
- Respect for local culture and religious faith.**
- We buy wood for bonfires from government-run depots, and given a choice, we would rather do without such activities. But the weather at this height necessitates such usage.**

Our Offers
