

# Portrait & Head Shot Photography Prices

## Session Fees

The Session Fee includes photographer's time and talent and does not apply to the prints or digital files. For portraits we have two session slots (1 hour or 2 hours) that you can select. For Head Shots we allocate a 1-hour time slot. Please let us know in advance if you would like more time for your portraits or if there are additional subjects for your head shots. A portion of the session fee (\$25 coupon) can be applied to your print selections with a minimum order of \$35.

We are available to take your pictures at your home/office, an outdoor location or our studio.

|                                       |       |
|---------------------------------------|-------|
| 1 Hour Session                        | \$125 |
| 2 Hour Session                        | \$250 |
| Head Shots                            | \$150 |
| Additional Head Shot Subjects (each)  | \$75  |
| Additional time (1/2 hour increments) | \$75  |

## Delivering Your Images

On-line previews are usually available within 5 days after the session for your orders. You have the option to order prints or digital copies of the images.

### Canvas, Mounted Prints or Lab Prints

You can display your images as Canvas Prints, Mounted Prints or traditional lab printed photos.

**Canvas Prints:** Each photo is printed on canvas and hand-wrapped around a wooden frame; including sawtooth hangers and a slightly reflective finish. Canvases have a tight and consistent weave that matches the texture associated with a traditional artistic canvas.

**Mounted Prints:** Each photo is printed on a semi-glossy Lustre paper and mounted on durable long-lasting backing material, ideal for larger print sizes. Backing material options are: Styrene or Black Standout

**Lab Prints:** These are unframed print products. They are available in traditional size print products, holiday cards, baby cards or graduation cards. Multiple paper types are also available based on the product you select. Pre-configured print packages using a single image from your session are also available.

Each photograph undergoes **extensive retouching**, including color balancing.
