

HAND WASH

Klensce – The Science of Cleaning

At Arham Ventures, we believe in not just cleaning for the sake of cleanliness, but curating the right solutions that eradicate the most common pathological contamination along with the microbial overload that may hamper the process and product qualities. With Klensce, we instill our solutions with the right scientific backing to provide for results that improve the hygiene standards with unparalleled cleaning solutions.

K11 is a specially curated and formulated liquid hand wash that effectively removes dirt, stains, germs and other microbiological pathogens from your hands. It provides for a great moisturizing and protective shield around your hands that optimize your hand hygiene. It is safe to be used on all types of skin and is gentle.
