

KETTLE DESCALER

Klensce – The Science of Cleaning

At Arham Ventures, we believe in not just cleaning for the sake of cleanliness, but curating the right solutions that eradicate the most common pathological contamination along with the microbial overload that may hamper the process and product qualities. With Klensce, we instill our solutions with the right scientific backing to provide for results that improve the hygiene standards with unparalleled cleaning solutions.

K8 is a specially curated and formulated liquid descaler that effectively removes dirt, oil deposits, grease and stubborn stains from metal surfaces such as kettles, cutlery, showerhead and silver items. It provides for a great shine and is fast acting. It is safe to be used on all types of hard surfaces including silver and is non-abrasive.

- ★ Reduces microbial contamination
- ★ Superior fomulation provides for an unparalleled shine
- ★ Concentrated formulation for increased economic viability
- ★ Premium quality ingredients that deliver an enhanced performance
- ★ Safe for the soil and for the environment
- ★ Eliminates organic and inorganic deposits and removes scale
- ★ Cleans and detarnishes silver to provide enhanced shine
