

KF700A Series Thermostat

Introduction

KF-700A-WK thermostat is suitable for indoor temperature control of central air conditioning fan coil systems or air duct systems.

It can control the opening and closing of the fan coil units, underfloor cooling valves, or water valves at the end of the air conditioning system, achieving the goal of regulating indoor temperature, comfort, and energy conservation.

Features

- Power ON/OFF
- ☐ Temperature Control
- ☐ Switching between Cooling and Ventilation
- ☐ Fan speed control
- ☐ Manual or Programmable Scheduler
- ☐ Child Lock Function
- Wifi and APP Connectivity
