For the Enterprise Plan

Who is an ideal referral?

- An e-commerce store on Shopify doing an annual revenue of at least \$10Mn
- Your referral is ideally the Director of Customer Support at their company. Though, feel free to refer anyone: business owner, founder, customer support manager, support agent, E-commerce manager, etc.
- Your referral is not a tiny store! Their ticket volume justifies the need for AI automation (100+ support requests/day).
