WELCOMING SPEECH

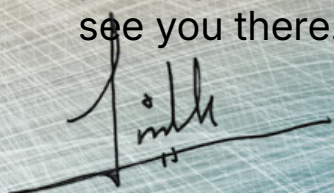

YBRS. DR LIM HENG HING
Consultant Orthopaedic, Spine &
Trauma Surgeon
Sunway Medical Centre

Malaysia Society of Interventional Pain Practitioner (MSIPP) warmly welcome visitor to our society. MSIPP is a forum to promote the interventional procedures as a safe medical procedure with regular training and high-level interaction between practitioner from various medical specialty.

This year in 2026, the society has organized the Interventional Pain Practitioner Update 2026 conference which will be held in Connexion Conference Centre (Nexus), Bangsar South, Kuala Lumpur in July 2026. The conference was designed to cover broad ranging topics and in-depth in selected subjects.

This year, MSIPP's, emphasis is getting younger specialists to present original research paper. To this aim, registration fees for those participants with paper accepted for presentation will be waived.

Participants who confirm their registration earlier will be invited to lectures cum dinner symposium. As in previous dinner symposium, participants should expect to indulge in deep dive into a subject. I hope to see you there.

A handwritten signature in black ink, appearing to read 'Lim Heng Hing', is written over a horizontal line.

Dr Lim Heng Hing

OFFICIATE SPEECH

**YBHG. DATO' DR MOHD AZMAN
BIN YACOB**

Deputy Director General of Health
(Medical)
Ministry of Health Malaysia

It is my distinct honour and privilege to stand before you today as we gather for the International Interventional Pain Update 2026, or IIPU 2026. I wish to extend my warmest welcome to each and every one of you who has taken the time to be here – whether you have travelled from across Malaysia or journeyed from across the seas to join us at this beautiful Connexion Conference and Event Centre here in Bangsar South, Kuala Lumpur.

This is a particularly meaningful occasion for me personally, as I have only recently assumed my responsibilities as Deputy Director General of Health (Medical) at the Ministry of Health Malaysia, effective the 1st of this month. To be invited to officiate this important international gathering so early in my tenure is both a great honour and a testament to the growing significance of interventional pain medicine in our national healthcare agenda.

A Gathering of International Excellence

Let me begin by acknowledging the remarkable international representation we have at this year's IIPU. It is truly inspiring to see that we have welcomed five distinguished experts from the Republic of Korea, four from India, and one each from Taiwan, China, Singapore, and Thailand. Your presence here demonstrates the power of collaboration and knowledge-sharing across borders. Each of you brings unique expertise and perspectives that will undoubtedly enrich our understanding of interventional pain management.

To our international speakers – thank you for your willingness to share your knowledge and experience. Your lectures will serve as a bridge, connecting the latest advancements in pain medicine from your respective countries to our clinicians here in Malaysia.

The Journey of MSIPP: Fifteen Years of Excellence

Ladies and gentlemen, the Malaysian Society of Interventional Pain Practitioners – which we know as MSIPP – was founded in 2011. Since that founding year, our society has worked tirelessly to uphold the highest standards of safety and quality in interventional pain practice among Malaysian clinicians.

For fifteen years now, MSIPP has served as a vital platform for sharing experiences and exchanging ideas in this rapidly evolving field. The society has conducted national-level cadaveric interventional workshops, embraced new technologies such as ultrasonography in pain medicine, and continuously strived to advance the practice of interventional pain management in our country.

IIPU 2026
25 - 27 July 2026
KUALA LUMPUR

*Translating Evidence into Practice:
The Future of Interventional Pain Management*

MSIPP's commitment to education and professional development is evident in the very programme we are launching today. This three-day event features fluoroscopic-guided workshops, ultrasound-guided workshops, and live-surgery workshops – all designed to translate evidence into practice and shape the future of interventional pain management.

Malaysia's Place in the Global Pain Medicine Landscape

Distinguished guests, as we look around this room, we are reminded that pain medicine is undergoing a significant and necessary transformation globally. In the United States and European countries, interventional pain medicine has evolved into a discipline that prioritises targeted therapy over generalised symptom control. North America remains a dominant market in pain management, driven by advanced healthcare infrastructure and high adoption of innovative therapies. Europe, likewise, continues to focus on innovative therapies and personalised medicine approaches.

Malaysia is working aggressively to be part of this rapid development. We are not content to simply observe from the sidelines. We are committed to ensuring that our clinicians are equipped with the latest knowledge and skills, that our patients have access to safe and effective interventional pain procedures, and that our healthcare system keeps pace with global advancements.

The establishment of interventional pain services in our institutions, led by pain specialists and providing comprehensive multimodal pain management, is a testament to our progress. The growing demand for non-opioid and non-pharmacological treatment options in Malaysia reflects our alignment with global best practices. And events like IIPU 2026 are a clear demonstration of our commitment to remaining at the forefront of this field.

A Platform for Learning and Collaboration

This conference, with its theme of "Translating Evidence into Practice: The Future of Interventional Pain Management," could not be more timely. The gap between research and clinical practice is one that we must continue to narrow. Through workshops, lectures, and discussions over the coming days, we will have the opportunity to learn from one another, to challenge our assumptions, and to return to our practices with renewed knowledge and skills.

To our Malaysian delegates – I encourage you to make the most of this opportunity. Engage with our international colleagues. Ask questions. Share your own experiences. This is what MSIPP has always stood for – a community of practitioners committed to excellence, safety, and continuous learning.

Looking to the Future

As we look ahead, I am confident that the future of interventional pain medicine in Malaysia is bright. With the continued dedication of MSIPP, the support of the Ministry of Health, and the collaboration of our international partners, we will continue to raise the standard of care for patients suffering from chronic pain.

Pain is not merely a symptom to be managed – it is a condition that affects every aspect of a patient's life. Our work in interventional pain medicine has the power to restore function, alleviate suffering, and improve quality of life for countless individuals. That is a responsibility we must take seriously, and it is a privilege we must never take for granted.

IIPU 2026

*Translating Evidence into Practice:
The Future of Interventional Pain Management*

Conclusion

In closing, I wish to once again thank the Malaysian Society of Interventional Pain Practitioners for organising this important event. I congratulate the scientific committee, the organising team, and all who have contributed to making IIPU 2026 a reality.

To our international guests – I hope you will enjoy your time in Kuala Lumpur, and I trust that the connections you make here will lead to lasting collaborations that benefit pain patients across our region and beyond.

To all delegates – I wish you a productive and enlightening conference.

May the exchange of knowledge that takes place over these three days translate into better care, better outcomes, and better lives for those we serve.

Thank you, and I wish you all a successful International Interventional Pain Update 2026.

With *Bismillahirrahmanirrahim*, I hereby officiate International Interventional Pain Update 2026 officially open.

1510 - 1525	Tea Break	
Chairpersons: Dr Gopinathan Raju & Dr Anand Murugesu		
1525 - 1550	Interventional management for chronic shoulder pain among disability	Dr Salmah Anim Abu Hassan
1550 - 1615	Complex Regional Pain Syndrome: Current evidence and guidelines	Dr Mohd Faeiz Pauzi
1615 - 1640	Episacral Lipoma: Diagnosis and management	Dr Muralitharan Perumal
1640 - 1700	Trigger points and red flags in the management of neck pain	Dr Kamalanathan Palaniandy
1700 -1800	International Interventional Pain Update 2026 Final Closing Remark	

IIPU 2026

25 - 27 July 2026
KUALA LUMPUR

Translating Evidence into Practice:
The Future of Interventional Pain Management

DAY 3:

27TH JULY 2026, MONDAY
POST-SYMPOSIUM WORKSHOPS

Fluoroscopic-Guided Workshop

8.00 am - 2.00 pm

Academy for Silent Mentor

Ultrasound-Guided Workshop

2.00 - 5.00 pm

Academy for Silent Mentor

Live-Surgery Workshop

8.00 am - 5.00 pm

Pantai Specialist Hospital Kuala Lumpur

DAY 3:

Fluoroscopic-Guided Interventional Pain Cadaveric Workshop

27 July 2026, Monday.

8.00 am - 1.00 pm Venue: Academy for Silent Mentor

Chairman : Dr. Chen Chee Kean

Station 1 (Head and neck)

1. Sphenopalatine ganglion block
2. Stellate ganglion block
3. Trigeminal ganglion block
4. Cervical medial branch block

Station 3 (Lumbar)

1. Sympathetic block
2. Discography
3. Lumbar medial branch block
4. Communicating ramus block

Station 2 (Thoracic)

1. T2,3 sympathetic block
2. Splanchnic nerve block
3. Thoracic facet block
4. Intercostal nerve block

Station 4 (Pelvis)

1. Hypogastric plexus block
2. Caudal neuroplasty
3. Sacral nerve root block
4. Sacroiliac joint block

Remarks

- 8 participants per station, 2 facilitators per station
- 15 minutes facilitator demo, 40 minutes for 8 participants (5 minutes per participant)

TIME	PROGRAM	TRAINERS
0800 - 0830	Arrival at Academy of Silent Mentors, Cheras	2 facilitators per station : Dr Lim Heng Hing Dr. Toh Charng Jeng Dr. Ozlan Kamil Dr. Muralitharan Perumal Dr. Chen Chee Kean Assoc. Prof Dr Farizal Fadzil Dr. Alex Hor Dr Chih-Peng Lin
0830 - 0900	Introduction and Briefing	
0900 - 1000	First Rotation: Hands-On Cadaveric RFA Workshop	
1000 - 1100	Second Rotation: Hands-On Cadaveric RFA Workshop	
1100 - 1115	Tea Break	
1115 - 1215	Third Rotation: Hands-On Cadaveric RFA Workshop	
1215 - 1315	Fourth Rotation: Hands-On Cadaveric RFA Workshop	
1315 - 1400	Closing & Lunch	

DAY 3: Ultrasound-Guided Interventional Pain Cadaveric Workshop

27 July 2026, Monday.
1.00 pm - 5.00 pm Venue: Academy for Silent Mentor

Chairman : Dr. Ken-Yi Lui

TIME	PROGRAM	TRAINERS
1300 - 1400	Registration & Prep	2 facilitators per station : Dr. Aldred Soo Dr. Awisul Islah Ghazali Dr. Ahmad Afifi Mohd Arshad Dr. Salmah Anim Abu Hassan Dr. Chan Wei Heng Dr. Rushin Maria Dass Dr Sushpa Das Dr Sireedhorn Assavanop Dr Siew Gee Ho
1400 - 1415	Introduction and Briefing	
1415 - 1515	First Rotation: Hands-On Cadaveric Ultrasound Workshop	
1515 - 1615	Second Rotation: Hands-On Cadaveric Ultrasound Workshop	
1615 - 1630	Tea Break	
1630 - 1730	Third Rotation: Hands-On Cadaveric Ultrasound Workshop	
1730 - 1830	Fourth Rotation: Hands-On Cadaveric Ultrasound Workshop	
1830 - 1845	Closing	

Station 1 HEAD & NECK

- Cervical medial branches, nerve roots, stellate ganglion, greater & lesser occipital nerve, third occipital nerve

Station 2 SHOULDER

- LHBT, SASD, rotator cuff interval, glenohumeral joint, suprascapular nerve

Station 3 THORACIC & LUMBAR

- Thoracic facets, intercostal nerve, posterior GHJ, lumbar medial branches/facet, deep gluteal (piriformis, pudendal, cluneal)

Station 4 KNEE & HIP

- Joint injections & denervation targets

Remarks

- 8 participants per station, 1 or 2 facilitators per station
- 15 minutes facilitator demo, 40 minutes for 8 participants (5 minutes per participant)

0830 - 9.00	Case & Pre-Operation Discussion	
9.00 - 13.00	Live-Surgery 1: Caudal Epidural Balloon Neuroplasty for Chronic Radicular Lumbosacral Spinal Pain Secondary to Single Level Herniated Intervertebral Disc	
13.00 - 14.00	Lunch	
14.00 - 15.30	Live-Surgery 2: Caudal Epidurolysis with Pulse Radiofrequency of Dorsal Root Ganglion Using Boston Scientific RCE Pulse Epidurolysis Catheter with Bilateral Thermal Radiofrequency Ablation of Medial Branches of Spinal Nerves Innervating Lumbar Facet Joints L3L4, L4L5, L5S1 Using RF Generator	Dr Gopinathan Raju
15.30 - 1700	Live-Surgery 3: Cryoablation of Knee Joint for Chronic Knee Pain	
1700 - 17.30	Conclusion & Certificate Presentation Afternoon Tea	

IIPU 2026 INTERVENTIONAL PAIN UPDATE

LIVE INTERVENTIONAL WORKSHOP

Advancing Skills. Improving Outcomes.
Through Evidence-Based Interventions.

DATE

27 JULY 2026
(MONDAY)

TIME

**9:00 AM –
4:00 PM**

VENUE

**PANTAI HOSPITAL
KUALA LUMPUR**

WORKSHOP HIGHLIGHTS

Live Interventional Pain Procedures
with Expert Guidance

Fluoroscopic & Ultrasound-Guided
Techniques

Evidence-Based Practice Update

Case Discussions & Problem Solving

Interactive Q&A and Networking

COURSE DIRECTOR

Dr. Gopinathan Raju

Consultant Anaesthesiologist
& Pain Specialist

Pantai Hospital Kuala Lumpur
