

Rebecca Jablonowski - CHC, CM-LEAN President

Rebecca has 21 years of experience managing healthcare, science and technology, and clinical research projects. Having worked directly for significant construction management firms, design firms, and on the owner's side within a healthcare institution, Rebecca brings a unique and balanced perspective to her project assignments. She is adept at managing a range in scale of projects, from small renovations to multi-million-dollar programs. Rebecca is well-versed in space planning, end-user coordination, design coordination, and LEAN construction project delivery.
