100% Soybean Oil with Natural Emulsifiers that most people use as an Organic Insecticide. This product does not have an EPA label and we sell it as a Spreader/Sticker. Will not burn plants.

Organics is the story of nutrition.

When we feed any organism the highest nutrition possible, that organism be it soil microbes, plants, animals or humans will develop to its optimum potential. That means greater happiness, less problems, less expense and a brighter future.

We are as healthy as the world we are a part of. Organics believes in the homeopathic approach; strengthen our entire system and we ourselves benefit.
