LEAN
CERTIFICATION

Level 1
Lean Certified

Level 2
Lean Certified

Level 3
Lean Certified

Module 1

01

Module 1 provides students with fun and interactive basic Lean training. Participants will earn their level 1 Lean certification after completing the LeanSetGo workshop, and one Lean project focused on Cost of Goods Sold (COGS) reduction.

Module 2

02

During module 2, students will experience a deeper understanding of various core Lean tools and principles. After completing the level 2 Lean project which demonstrates their understanding and application of advanced tools, students will receive their level 2 Lean certification.

Module 3

03

Module 3 is our most advanced Lean leadership certification, which prepares leaders to grow and sustain a Lean enterprise. Level 3 certification is offered only to students who meet certain prerequisites and complete our most challenging project that demonstrates their ability to grow and sustain a Lean enterprise.
