

Ionic Detox Foot Bath Liability & Consent

Purpose

Ionic Detox Foot Baths are a non-medical wellness service designed to support the body's natural detox pathways. This service does not diagnose, treat, or cure any medical condition.

Not For Clients With

Pacemaker or implanted electrical device, organ transplant, active chemotherapy or radiation, open wounds or infections on the feet, uncontrolled epilepsy, pregnancy or breastfeeding without medical clearance, or metal implants in the lower legs.

Possible Reactions

Mild tingling in the feet, temporary fatigue, headache, nausea, increased urination or bowel movements, or short-term skin redness from the warm water.

Your Responsibility

Arrive well-hydrated and continue to hydrate after your session. Always share current health conditions and medications with your practitioner. If you feel uncomfortable at any time, please speak up immediately.

Consent

By booking or signing, you accept full responsibility for your participation and release Never Defeated LLC from any liability related to your Ionic Detox Foot Bath session.
