

E-Powered Water Skis

by Micro Vehicle Technology®

Finally, you can be first.

The next yacht over will have questions.

No towboat required.

Totally buoyant at rest.

Set your own pace.

Carve your own path.

A new story to bring home.

Electric propulsion puts the ride in your control.

Designed and handcrafted in Cocoa Beach, Florida, USA.

SUPERYACHT OWNERS

Your yacht. Your colors.

Your signature style.

A pair of E-Powered Water Skis, handcrafted to complement all three.

SUPERYACHT BUILDERS

Give your next handover a feature owners will want to show off.

YACHT-TOY SPECIALISTS

Introduce a new ride to your clients. Explore distribution or licensing.

Be among the first to bring them aboard.

Request a bespoke build proposal or discuss a yacht-industry partnership.
