Working Principle

- ▶ The devices have incorporated the use of 'Nikola Tesla Puple Plate Harmonizing Technology', 'Georges Lakhovsky Multi-Wave Generator' and 'Wilhelm Reich' Orgone technologies.
- ▶ They generate differential Torsion fields, which help in DNA/Cellular repair. They also generate 'Negative Ions', which aid in the cleaning of the free radical ionic pollution in the area.
- ▶ The embedded 'Gem-stone crystals', produce the Emotional and Psychic Balance.
- ▶ The device helps reconfigure earth's magnetic 'Schumann-Resonance' and high frequency 'electro-magnetic-radiation' waves from various divices and also from interstellar radiation into to a beneficial 'Biological Frequency Resonance' waves.
- ▶ Most importantly, it generates low frequency waves (5 to 50 Hz) for DNA/ Cellular Repair.

Beneficial Aspects

- ❁ Reduces Itches/Allergy
- ❁ Reduces 'Nervous System Imbalance'

Is ELECTROMAGNETIC RADIATION Really That Dangerous?

WHAT IS EMF?

An EMF refers to the invisible cloud of electricity that surrounds electrically charged particles. When charged particles are moving (and they always are), they produce magnetic fields. Every living and non-living thing you come in contact with has its own electromagnetic field.
