OBJECTIVE

Obtaining a teaching position within middle or high school where I can share my passion for teaching, my knowledge of the Spanish language and the successful application of effective, modern and inclusive teaching methodologies.

EDUCATION

Master of Education | University of Arizona

MAY 2019 - MAY 2020

'Teach Arizona' M.Ed. Teaching and Teacher Education, current GPA: 3.8

Bachelor of Business Administration | New Mexico State University

MAY 1988 – MAY 1992

Management Information Systems, (Information Technology), Minor in Music GPA 3.6

EXPERIENCE

Student Teacher (7TH grade Spanish I) | Santan Junior High, Chandler, AZ

DECEMBER 2019 – MAY 2020

- Accomplished observations of mentor teacher to gather effective teaching strategies and tools for the purpose of preparing for future teaching practice
- Created, designed and taught lesson plans, unit plans that aligned with the Arizona World and Native Language Standards
- Communicated with mentor teacher regarding my teaching practice, pedagogy and evaluations resulting from daily teaching practice
- Worked with students on their writing and speaking skills to enable and inspire them to reach second language acquisition
- Collaborated with mentor teacher on daily lesson plans, teaching strategies, educational games and technology resources to be used for the purposes of teaching

Student Teacher (7TH grade Spanish I) | Desert Ridge Junior High, Gilbert, AZ

JULY 2019 – DECEMBER 2019

- Observed mentor teacher for a period of five months to learn effective teaching methodologies in language acquisition
- Became familiar with school administration staff, fellow teachers and was fortunate enough to observe approximately 8 Spanish language educators
- Advanced students' Spanish writing and speaking skills by sharing pronunciation strategies
- Developed and created lesson plans and unit plans that aligned with the Arizona World and Native Language Standards

Program Management Data Analyst | ON Semiconductor Phoenix, AZ

April 2015 – August 2017

- Created excel reports, graphs, PowerPoint presentations, statistical analysis presentation materials that would be presented to corporate level staff on a weekly, monthly and quarterly basis

Programmer/Business Analyst | ON Semiconductor Phoenix, AZ

April 2013 – august 2013

- Performed extensive analysis of current system functionality in preparation of potential future replacement of application
- Compiled reports for completed problem tickets and work requests

Programmer/Business Analyst | ON Semiconductor Phoenix, AZ

April 2002 – October 2007

- Served as Test Manager for the FMS/Manugistics development project by tracking, reporting and executing test cases throughout each development lifecycle
- Created design documents for all requested changes of the CSS/OP system
- Created training documentation and trained new users of the Autosys scheduling system

Consultant/Information Systems Analyst | ACS Application Outsourcing Project, Motorola and ON Semiconductor Phoenix, AZ

April 2000 – April 2002

- Performed production support activities for Motorola and ON Semiconductor order processing systems consisting of approximately 150 COOL:GEN online transaction and 100 COOL:GEN/COBOL batch programs
- Completed sizing request, analysis and program specification documents for enhancements and code fixes to current production transactions
- Participated in the planning, design, testing and implementation of several software projects which provide added functionality to existing systems
- Responded to production support calls requiring code fixes, reporting and schedule changes
- Maintained EDI order processing applications and provided problem resolution support for issues pertaining to translated data files
- Created process documentation to aid team members in daily production support activities
- Participated in training session for specific areas of expertise
