## Educational Consulting Services for HQIM Implementation

Implementing high-quality instructional materials (HQIM) is a multi-year process that demands ongoing, structured support. Our consulting services help educators navigate each stage with curriculum-based professional learning.

As educators become more familiar with new materials, their focus naturally evolves, from understanding the content and logistics to refining instruction and enhancing student outcomes. We provide targeted support at every step to promote lasting success.

## District Support

Support districts in assessing their current stage using tools like Instructional Materials Implementation Tool. Tailored support for effective HQIM implementation.

Guide teams in using tools like the Literacy Planning Inventory and Rivet Education's Diagnostic to set priorities and create a high-impact professional learning plan.

Content focused and curriculum aligned professional learning embedded in science of learning. Instructional practices that increase student achievement.

## Collaborative Partnership Planning and Alignment

- Initial and ongoing HQIM implementation goals
- Support scope and sequence planning
- Integrate with existing teams (OIP, PLC, coaches, administration, teacher leaders)
- Maximize impact of grant funding

**Through thoughtful planning and strategic support, we help schools reduce implementation barriers, build educator confidence, and ensure successful, sustainable HQIM adoption.**

### **Angela Schaal, Ed.S.**

*Founder & Lead Consultant, A Plus Educational Consulting*

Angela Schaal is an experienced educational consultant and the founder of A Plus Educational Consulting, where she partners with schools and districts to improve literacy outcomes through evidence-based practices grounded in the Science of Reading. With a background in classroom teaching, building and district leadership, and professional development, Angela specializes in supporting structured literacy implementation and guiding systems-level change to ensure equitable access to effective reading instruction.

Angela provides dynamic professional learning, job-embedded coaching, and leadership support to help educators and administrators build capacity across all tiers of instruction. Her work focuses on aligning curriculum, instruction, and assessment with the principles of structured literacy, while helping teams create and sustain coherent, districtwide literacy plans.

Through A Plus Educational Consulting, Angela is committed to transforming instructional practices and improving reading outcomes for all students—especially those who have been historically underserved. She brings a deep understanding of reading development, a practical approach to implementation, and a passion for ensuring that every child has the opportunity to become a successful, confident reader.
