

Recycaball – Used tennis Ball Recycling

15p per ball – maximum of £37.50 per sack

Please read the below instructions carefully, especially regarding the packing of the sacks for collection. Its vitally important this is done correctly so we receive the balls in the best condition, making the most money for your club. If sacks are not tied correctly, they can split and be lost in transit.

We pay 15p per accepted ball – maximum of 250 balls – maximum payment of £37.50.

Please note the below when it comes to the standards that we can accept.

- We accept Standard branded Tennis balls in everyday use from most manufacturers.
- We accept multicolored low-pressure balls.
- Balls should be in good condition and ready to recycle.
- Balls should be dry and free of any litter or other court debris.
- Balls cannot be accepted if they are threadbare, split, weather damaged, or sun bleached.
- Balls cannot be accepted if they have a frayed nap across the surface.
- Balls cannot be accepted is they have been heavily used on clay, heavily discoloring them.
- Balls cannot be paid for if they are low pressure yellow/mini balls (Red/Green dot, Stage 1 etc.)
- Balls cannot be paid for if they are the bigger red/yellow low pressure fun/kid balls

Visit our website for a full list of accepted ball types and standards - www.recycaball.com

If we receive unacceptable balls, we'll do our best to recycle & reuse them, but we can't pay for them.

You'll receive a package containing a blue packing sack, 2 heavy duty reusable cable ties, attached transit label and a leaflet. Fill up with 250 - 275 balls. No more than 275 due to weight restrictions

Include a sender form in the sack in case the label goes missing. You can download the form on our website. If we can't trace the sack, then we can't pay you! Weave a cable tie through all the eyelets and tighten to close.

Twist the top of the sack until a neck is formed in the sack material. Take the second cable tie and tighten around the neck. Tuck the ends away, please don't cut them off

Once you've packed the sack, drop us an email - mail@recycaball.com - and we'll arrange a courier to come out and collect the sack. You can add extra balls to cover any that may be rejected. If you are adding extra balls to offset rejects, a maximum of 25 extra can be included per sack

We can't give exact pick up times, but we'll do our best with DHL. Please provide us with a safe place for pick up, so there's no need to wait in. Please let us have any updated personal details, telephone numbers, bank details etc. As soon as we've graded the balls, we'll make payment direct to your nomimated bank account.

Thank you for recycling with us!
