

THIS IS A BIG FIGHT!

We the people need to band together, stand up to have our voices count, and stop this baseless, frivolous lawsuit and government overreach.

We must not allow special interests (politicians, yacht club, developers...) to dictate our future.

THE MARINA EXPANSION

Things you should know:

- They are trying to shoehorn a massive industrial building into a small lot in a residential neighborhood.
- The marina is a protected property in the charter.
- The dry storage building is managed by the marina but is not currently in the charter.
- The master plan specifies that the maximum size dry storage building is 16,000 sq ft.
- City council approved a 21,000 sq ft building
- There was never an environmental or market study done to support this massive expansion.
- The devastating impact on the environment, stormwater management, parking and the already compromised Indian River Lagoon has not been addressed.

WHAT CAN YOU DO TO HELP NOW?

- If you are a petition signer who wanted to protect charter properties from being overbuilt and to have a voice in how city charter properties are developed, please sign a notarized affidavit to affirm that you as a petition signer were not fooled.
- Tell all the candidates to support the voice of the people and the preservation of Vero Beach.
- Donate to assist with mounting legal fees.
- Spread the word,
- Write letters to editors-32963, TCPalm...
- Email city council.
- Like us on Facebook, share our page and write a review.
- Attend the trial on 10/25 at 9:00 in Ft. Pierce.

WHAT YOU CAN DO ON NOVEMBER 8TH:

- Vote YES to the Marina/Parks Citizens Referendum. We the taxpayers/voters must hold on to our rights to make decisions on charter protected properties, by our vote.
- Vote only for candidate who support the voice of the people and the preservation of Vero Beach.

Truth and facts are important!
