Oregon Community Foundation 7/22/2022
Attn: Megan Loeb, Associate Program Officer;
Project Turnkey Application Review Committee

Dear Ms. Loeb and the Review Committee,

AllCare Health is a Coordinated Care Organization (CCO) that provides Medicaid beneficiary services to the Southwestern Oregon, including Gold Beach and Curry County. Our aim is to change healthcare to work for everyone, and this is especially true of people who are struggling with poverty and the social determinates of health and inequity. AllCare Health works with community partners, including AllCare Community Foundation (ACCF) to help address the needs of vulnerable community members.

Due to the lack of affordable housing prior to 2020, Gold Beach and Curry Country have been, and continue to be, greatly impacted by the pandemic and people relocating from regional wildfires. The increasing number of individuals experiencing homelessness are an immediate cause for concern in our community.

AllCare Health supports the actions of Curry Homeless Coalition in its application for Project Turnkey in Gold Beach, Oregon and is interested in contributing to the project by lending staff support and will explore options for funding and in-kind support, if the project is awarded.

This project would bring needed relief to unsheltered and low-income community members in Gold Beach and the South Coast. It would also maximize the effectiveness of other programs by taking pressure off of service providers and improve community economic prospects by taking pressure off of the traditional and affordable housing market, as well.

Thank you for your work on this,

Doug Flow, PhD
Chief Executive Officer
