

Coastal Home Health & Hospice

Providing quality, compassionate, holistic care to patients & their family at home, supporting & honoring personal choices during illness & end of life

July 19, 2022

Megan Loeb

Dear Megan:

It is my pleasure to write this letter of support for Project Turnkey in Curry County Oregon.

As you know, Coastal Home Health and Hospice provides essential medical services to medically fragile individuals, **in their homes**. Nursing care is provided in a physical location, with an address, where medication, medical supplies and equipment can be delivered. For these reasons, we are unable to provide necessary care and support without critical housing.

The Turnkey Project supports our mission to provide quality, compassionate, holistic care to patients and their families at home, supporting & honoring personal choices during illness & end of life.

I look forward to the successful implementation of this project, and how it can expand services to the medically fragile, and those at the end-of-life.

Sincerely,

Jamie Daugherty, BSN, RN
Chief Executive Officer
Coastal Home Health and Hospice
