

**Representing Valves, Actuators & Fluid Process Components for Industrial and Commercial Applications**

### Ball Valves

- Threaded
- Direct Mount
- 3 Piece
- Flanged
- Multi Port
- Metal Seated
- Cryogenic
- PFA Lined

[Ball Valve Selection Guide](#)

### Butterfly Valves

- Resilient Seated
- High Performance
- Triple Offset
- PFA Lined
- AWWA C504

[Butterfly Valve Selection Guide](#)

### Pneumatic Actuators

- Rack & Pinion, Scotch Yoke, Spring Diaphragm
- Torque Range 50 - 43,000 in lbs
- Double Acting & Spring Return

### Positioners

- Pneumatic & Electro-Pneumatic
- Universal mounting
- Hazardous Location Models

### Limit Switches

- Corrosive Environment standard housing
- Inclusive mounting bracket
- High visibility indicator

[Aircon actuators & accessories](#)

### Electric Quarter Turn Actuators

- Non Failsafe / failsafe spring return options
- Torque ranges from 310 in-lbs - 40,500 in-lbs
- 12/24 vac/vdc, 120/230 vac and complete 3 phase solutions
- Standard and Hazardous Location rated (CLS/DIV and ATEX).
- Open/Close/Jog and modulating controls
- Standard features - Manual Overrides, auxiliary limit switches, anti-condensation heaters, 360 degree viewable position indicators

[pro-torque-electric-actuators/](#)

### Vane Pneumatic Actuators

- Double Acting
- Spring less fail safe design
- Torque Range 30 - 58,000 in lbs

[EZ Vane Actuators](#)

**Globe Control Valves**  
**Actuators & Positioners**  
**Steam Conditioning Valves**  
**Controller & Control Units**

#### Control Valves

- Sizes 1/2" to 32" - Globe, Double Seated, Three-Way, Hygienic, Angle
- ANSI class 300, 600, 900, 1500, 2500
- Temperatures -320° F (Cryogenic) to 1100° F

#### Steam Conditioning Valves

- Sizes 2" to 32" - Globe & Angle
- ANSI class 150 - 2500
- Temperatures—up to 1150° F

#### Positioners

- Hart, Profibus, Foundation Field Bus

[Flo-Tite Segment Ball Valves](http://www.flo-tite.com)

#### Modulating/Control Solutions

- V Ball Control Valves for fine control
- Segment Control Ball Valves for solids laden & viscous fluids

**Trunnion Mounted Ball Valves**  
**ASME B16.34 Floating Ball Valves**  
**Cryogenic Service Ball Valves**  
**API 6D Full Port Swing Check Valves**

[www.microfinishgroup.com](http://www.microfinishgroup.com)

#### Trunnion Ball Valves

- Metal Seated, 150—2500 class, 1/2' - 48"

#### Floating Ball Valves

- 2 & 3 piece designs, 150—2500 class, 1/2" - 10"
- Fugitive Emission Designs
- 3-way & Jacketed Designs

#### Cryogenic Ball Valves

- Floating & Trunnion, 150—900 class, 1/2" - 36"

#### API Swing Check Valves

**Knife Gate Valves**  
**Slide Gate Valves**  
**Floating Disc Check Valves**  
**Custom Valves**

[www.knifegates.com](http://www.knifegates.com)

#### American Iron & Steel (AIS) compliant upon request

#### Knife Gate Valves

- Sizes 2" to 36" - Cast Stainless, Metal or Resilient Perimeter Seated
- ANSI 150 and 300 class. Uni-directional or Bi-directional Seating
- Compliant with MSS SP81, AWWA C520, and ASME B16.6
- Manual or automated

#### Dual Seated Knife Gate Valves

- Sizes 2" to 24" - Full Port, Bi-Directional Drip Tight Shutoff
- Variety of alloys, seat materials, and actuation options

#### Fabricated Knife Gate Valves

- Manufacturing capacity for sizes 2" to 170" diameter and pressure ratings up to ANSI CL 300

<https://www.internationalvalvetech.com/>

#### Industrial Valves

- Gate, Globe, Check
- Forged Steel
- Plug Valves

***Our Vision: Summit Controls, LLC will be the most valued business partnership by our Distributor and Manufacturer Stakeholders and the leading process valve and controls representative serving the Northeast and Midwest US Industrial Distribution market.***
