- Proprietary Accountability Program

WHAT I'M LOOKING FOR

- Business owners looking to get unstuck
- Business owners who want to build a clear plan with actions steps
- Entrepreneurs seeking work / life balance
- Entrepreneurs desiring to find the excitement again in building their profitable business

WHAT YOU CAN TELL OTHERS

Viktoria designed this proprietary program for business owners who want to fast track their personal and professional achievements, regain work / life balance and rediscover the exhilaration in business ownership. She is an International Coach Federation (ICF) credentialed coach and has worked with over 48 business owners just last year! Her accountability program has been a great success for years. She is an expert in finding the perfect balance between practical approaches and working with the mindset; between a respectful nudge and a good ol' butt-kicking.

She has been called a "pivotal change; practical and produces results; effective and to the point; the wind beneath my wings". Viktoria's mission is to help business owners to bust through anything that keeps them from growing a profitable business.
