

Module 1 – Discover the Freedom to Fly

Flight Lesson 1 – Introductory Flight.

Objective:

Introduce the student to basic ground operations and flight procedures. It is to have fun, discuss the basics of flight, allow the student to control the aircraft on the ground and in the air while providing the student with a pleasant experience.

(Note: For the first introductory lesson the student is typically in the passenger seat.)

Content:

- ___ Pre-flight introduction
- ___ Cockpit entry
- ___ Positive exchange of controls
- ___ Starting procedures
- ___ Taxi
- ___ Checklist introduction and use
- ___ Normal takeoff
- ___ Four Basics: ___ straight and level, ___ climbs, ___ descents, ___ turns
- ___ Collision avoidance procedures
- ___ Normal approach and landing
- ___ Post-flight procedures
 - ___ aircraft post flight
 - ___ Logbook entries
 - ___ Lesson plan and task log entries

Completion Standards:

The student should operate the controls on the ground and in the air with the instructor emphasizing the positive exchange of controls. The student should want to move on for future lessons from the pleasant experience.

Assignment:

Go to Flight Lesson 2 and assign material covered for that lesson to study.

Lesson Results:

Date of completion _____ Instructor Signature/ID _____

Student Signature _____ Time flown _____
