My Holiday News Recount

On Sunday in the holidays I went to a place in Devon with my mum, dad and my little brother. We went in the car but it took a ^{long} ^{time} to get there at lunch time. When we got to my nan's caravan my dad was proud there were loads of Bales caravans they came from Bristol ^{and} my dad makes them. Then my dad took me back to my nan's caravan and my dad went out to have a beer. When my dad came back my mum took me to the park. I went on a con.

On another sunny day we went swimming and luckily the water was warm. I felt extremely proud of my self because I swam top to bottom for my first time without armbands. In the evening we played

big, it was so funne! Lastly we had a
BQQ. We had tasted soshis and burgers it
was yumme. This was my grave day.

In Reception 2014, it was a cold, wet, damp day. I was playing in the rainy, slippery playground with my great, kind brother and friends Daniel, Dylan, Jory and Ned. I was chasing them on the stampy, grey concrete when I slipped on single sand and then... I cracked my head on the black gate. There were gallons of blood. I was carried through the school and taken to hospital. There it dled down and I got a snack. It was a KitKat and some M&M's. Then my head got stitched to keep it together. Finally I went home because I couldn't go back too school.

Sports Day

Games outside

First we got into our PE kits and then we got into our teams. I was in Galloping Gorillas! We did the skipping rope and Scooter but I wasn't the best at the Scooter but I was a little bit better at the Skipping-ropes. Unfortunately it rained so we had to go inside because we were getting wet! We danced to youtube and Miss XXXX put on the Gummy Bear dance, the chicken dance and it was fun!

Making a poster

After the dancing we did some posters about keeping healthy and fit. We also watched a video to keep us healthy and fit and it was funny. There were photos of children eating fruit and picking fruit and also keeping fit while

it was raining.

Cheeky Chimps

In the afternoon we played Cheeky Chimps. We had to throw toys but under arm. After that we went back to the class and we had a tiny bit of choosung and I had three strawberrie and it was yummy and delicious. Then it was tidy up time and hometime. What a tiring Sports Day it was!

At half past nine we arrived. The church looked old and spooky. We went in and hung our coats on. I felt excited as I have never been to a church before. The lady put us into groups. As we were learning about different things we went in separate parts of the church but Miss W----- group got mixed up.

Helping our friends

In helping our friends we helped our partners. This is what we had to do. We had to pull our sleeves up, put your hands into the bowl, wash each others hands and finally dry each others hands.

Memories of year two

My favourite memory was when we went to B. Park because we got to taste marshmallows and build dens with animals inside.

I got to the Market Square by bicycle and I could see a butchers, a Cheesmünger and a fishmünger. There were cobbled roads and paths. Which shop should I go to? I thought I could go to the fishmünger to get some fish. I told the Shopkeeper^s what I wanted and they wrote it down on a list. Then I also saw the old Obelisk in the middle of the Market Square. I could hear the birds singing beautifully in the sky.

I also went to the Cheesmünger and the cheese was delicious. There were a big queue, but I waited quietly and patiently.

In the middle of the Market Square was a very old Obelisk. I also delivered a bit of fish to my house. When I was looking at the beautiful trees at the end of the path I was amazed how tall the trees were! I suddenly walked to the street and I saw some juicy pears.

The other day Year 2 went on a epic school trip to Hampton Court Palace because we wanted to learn more about King Henry the VIII and The tudar times. When we got there we went to look at the marvellous garden and met a gleeful gardener called Paul. Interestingly there were 32 gardens in Hampton Court Palace. The trees in the gardens were the shape of a mushroom.

In the afternoon we had our lunch and we went to King Henry the VIII church. Did you know he married Kathrine Parr there? It was very peaseful and a lovely lady told us some facts. Finally we came back to school we all had a epic time but we were ready to return to school to tell evrybody about our amazing journey. My savroute part was when we went on the wobboly bridge and I will never forget it.

Over half term I went to London with mummy and E. ^{and} I went to a park ^{called} _____. It was very fun! When I was there I went on lots of different rides. I ^{saw} seen a tiger and a Lion. After that me and the year group had a little walk and a man told us all about the indian ^{bear} tree. Then we relaxed and had some biscuits and fruit. This is where we had the best bit we played a game of duck - duck goose and we lied down. Finally I had another nature walk around different types of gloves. What I did on my weekend

On Saturday I went to mason G's birthday party with Eli at oxygen and I jumped really high on the trampolines.

Then I jumped off a really high ledge onto an Airbag then did it again and had some water.

After that I got a slushy and went to the party room and had a hotdog, some carrots and cake.

finally I went home with Eli and played with some balloons and we got home.

On Sunday I just stayed at home and played some games, watched TV and relaxed.

Our brilliant day at Austerfield

When I arrived at school last Thursday I was very excited while Mrs Naylor was doing the register because we were going on a school trip to Austerfield. After that, we lined up in groups of two and walked excitedly along the pavement to the minibus, with coach. When we got in it we chatted and sat down as quick as a flash. We got there and then we got kindly greeted by Emma.

To start we hung up our yummy lunch boxes and then we went down a big bumpy hill for habitat hunting. After that, we started and I found a fox print and also found rabbit droppings. Next, we found rabbit fur and howls. When I've finished that, we went into the woods and found a little, green frog. After that, we built dens and we built a fox den! When we finished it was dinner! Before lunch, we washed our hands and then we started eating.

When we ate, we chattered, I sat with all my friends! I had a yummy, scrummy sandwich and mince chedars they were amazing.

After playing we washed our hands and quietly watched into the animal house. Then we stroked excitedly a little toad then Maisy held a stick insect and it danced. My parrot & were the snake and the lizard. Then, we went pond dipping, I found a fish. Sadly, we walked away from E. When we went into the cove and as quick as a flash we arrived at school and then I went home.

Over all, my favorite thing was the lizard. I will always remember the snake. I want to return with my family.

On Monday 25th April, Neil Armstrong visited our year 2 classroom. When we all sat down some very powerful music came on and it was silence and suddenly, Neil Armstrong walked in and it made me feel shocked it was so inspiring. First Neil Armstrong told us that he was an astronaut and told us that he was the first man on the moon.

Neil Armstrong told us the Apollo 11 is bigger than the statue of liberty and I felt outstretched it was so fascinating. During the journey to the moon the astronaut had to sleep in hammocks because they don't have beds in the Apollo 11.

The rockets landed on the moon carefully and Neil and Buzz came off the rocket and found moon rocks whilst Michael put the America flag on the moon.

Neil Armstrong said these famous words one small step for man and one giant leap for mankind and got back into the rocket.

Neil, Buzz and Michael stood in the rocket and went back to Earth but on the way back some fire hit the rocket so they had to use parachutes into the pacific ocean and when they got home from a rescue boat.

Unfortunately they had to quarantine for 4 weeks just in case they brought back germs. Neil's family felt really sad that he had to quarantine but really proud of him for being the first man on the moon.

Finally we wore NASA helmets to keep us safe so we don't get hurt. We went out to the quiet area to watch our rockets get launched. Then Neil pumped our rockets and we counted down from 10 all the way to 1 and watched our rockets zoom up to the sky. It was an amazing morning and I learnt a lot of facts!

Diaries

Dear Diary

Last week, I woke up and I jumped out to the bright sky. I felt very happy and confident. What a wonderful day it was going to be! Suddenly, I crashed into the North Wind. Who was very, very grumpy. We started to have an argument because he wanted to see who was the strongest. He yelled "lets have a competition now." How awful. I didn't want a fight! It was a silly argument. We saw a man wearing a brand

new cloak. The grumpy Wind said that he could get the new cloak off his back. "Would you like to go first?" I said to the Wind. So the Wind blew and blew and blew. When I looked down I saw that peoples hats were blown away and I saw that boats sank in the harbor. I said "it's my go now." I let out my worm and the animals went down to sleep and the people gossiped. I felt very pleased off myself. I knew that my plan was ~~go~~ going to work. The man was so hot he took off his cloak and when he came to a river he took off his clothes off and went for a swim. That silly old ^{Wind} couldn't do it.

Dear Diary,

The most terrifying thing happened to me! I was playing with my friend ^{with} h^wale and suddenly the white shining ice split. My family called me I lied loudly back but They just couldn't hear me. and then the bleeping swaves carried me to ^{shore} shore. I ended up in an island.

I want to go home? I am so sad who's going to help me now? I miss my family I want them. Who's going to look after me?
