Design Guideline   The better resolution get the best result

A   Team Logo / School Logo / Team logo / Sponsor Logo
Only high resolution graphic able to get the best result :

1	ai or cdr	These kinds of graphic image always the best result
2	pdf file	Saved from Illustrator or CoralDraw pdf file, also very good in result
3	png file	Please use 300 dpi resolution and minimal twice as big than the final size you want, we suggest 20 cm in width or height
4	jpg file	Please use 300 dpi resolution and minimal twice as big than the final size you want, we suggest 20 cm in width or height
5	Other graphic file, such as tif image, we can try, but not guarantee, that's why we are now recommended	
6	ai or cdr file, must be true draw by Illustrator or CoralDraw, not just put a jpg or png file and save into ai or cdr file	
7	If logo or image from you not meet our production minimal standard, we might spend time tore-draw your logo or image	
8	You can send your hand drawing, and most of the time, we can help you to re-draw	
9	If you wish to let us to design your logo = Sorry, we are not capable to logo design	
10	If you knew or wish exactly the logo size, please let us know, so we can save time on reconfirm logo size	
11	If you did not specific indicate the logo size, our designer will use our judgement, this might lead to longer reconfirm time and slow down the process	

Hand Drawing Logo Idea | Our Services of Drawing

Logo Size Matter

B Photo image and other graphics

1	Design graphic resolution same as Logo requirements
2	If you wish to put any photo image onto your design, the result depend on your photo image resolution.
3	Photo size need to be minimal twice as bigger than your design size. Please use maximum resolution of your camera or phone to take photos.
4	We are not able to adjust your photo to meet our production minimal requirements, if your photo image resolution to low or size too small.
6	Many photo, image or graphic looks very clear on your screen, but it doesn't mean it is good enough for production.
7	Any web download image always not good enough for production, please try not to do that. But it maybe use for design direction.
8	If you wish to put your hand drawing onto your design, please use maximum resolution and size setting to take your photo, then send to us.
9	If you wish to put your hand drawing into design but require we re-draw it, please send your hand drawing and specifically told us.
10	If you wish turn your photo into comicalize, we shall use software to do this job, our designers are not train as artist, they are not able to re-draw.
11	We don't use PS to do our work, so we are not able to use PS to fix your photos, such as make it prettier.
12	Illustrator or CoralDraw always the best design tool to do your design（ai or cdr files）
13	We Sublimation printing onto fabric, so, sometimes tiny details just not able to compare to smooth paper
14	We Sublimation printing onto fabric, so, choose smooth texture fabric, will get the best result, such as our 50D fabric

D Colors

1	Every screen showing colors different, don't try to use computer or mobile phone screen to judge color, you will be disappoint
2	If you have specific color want to use, take a photo send to us, is NOT a good idea
3	The best way to pick a color is = pick color from our actual swatch. If you are so sensitive about color, send us a color reference, we will give a try
4	The 2nd best way to pick a color is = give us pantone number = CMYK value always better than RGB value
6	If you need fabric color swatch from us, please contact us, we will send to you. Swatch free of charge, but you will need to pay for shipping charge
7	We cannot print metal colors, such as Gold or Silver, but we can try to use Yellow or Grey to achieve metal color, but for sure it is not true metal color
8	Same color CMYK or RGB value, print on different fabric, may looks color shade different, that is because the fabric refraction color differently
