We come and collect the bags

Step 6
We transport them to Fungi Solutions

Step 7
Mushrooms work their magic

FREQUENTLY ASKED QUESTIONS

What is CigCycle?

A community myco-cycling program for cigarette butts

What is Myco-cycling?

Mushrooms digest plastic, in this case tobacco filters

How much does it cost?

Thanks to Sustainability Victoria, it's free!

How does it work?

Collect cigarette butts from your existing ash trays, place them in the provided bags and store them in your CigCycle bin until we come and pick them up

How big is the bin?

Businesses will need a space that is 25-50 cm wide - we recommend a covered outdoor area

How long does the program go for?

A maximum of 10 months, from March 2023

How do I get involved?

Refer a business or sign up by using the above QR code
