ARGUMENTS TO USE IN YOUR MESSAGE:

1. Patients have been **denied coverage** for lifesaving treatment and offered assisted suicide instead.
2. **Young women with anorexia have been given lethal drugs** by their doctor under this same policy in Colorado and Oregon.
3. Pain and suffering never make it into the top 5 reasons why patients die by assisted suicide in **Oregon**. Rather, the most commonly cited reasons are disability related concerns, which is why the **National Council on Disability** rejects assisted suicide.
4. Mental conditions are ignored and **depressed patients** receive lethal medications.
5. Doctors make **mistakes** and patients who are not dying receive the prescription drugs.
