

Happy New Year August 30, 250 Lunation 2796 Sturgeon Moon of the Peaceful Secular Democratic Republic of the United States of America, E Pluribus Unum, in the Fourth Hellenistic Period of Natural Revelation. We are the Peaceful Secular Democrat E Pluribus Unum Party prepared to construct the Second America Republic for a better Union. CIA Director and Catholic John Ratcliffe flew to Moscow on Tuesday August 25, 250 USA. He met with Vatican Castle and KGB/FSB. Prince Harry returned to England this week. American Family we are primed for victory over tyranny.

Physicist Robert Oppenheimer built the nuclear bomb. Physicist Kyle David Axton survived the story bomb. His autobiography "Aaxton Love in the Time of Covid and the Plundering of Ibiza" details his rise from abusive Kansas family to salsero physicist and international man of geopolitical mystery who defeats the Spanish Inquisition, visits Mecca, defeats Muslim terrorism, wins the Second Spanish American War against King Felipe VI for the love of his Philippines lady Julie Gacusan Ramos, yet his ultimate challenge risks his life in his own country America to defeat the evil Soviet Puppet President Donald John Trump and save Democracy on the Heavenly Space Ship Earth, end the Second Soviet American Cold War to prevent nuclear war with Vladimir Putin, change the year on the planet from 2026 A. D. to the 250 USA and all the while he resolves the medical mystery Fibromyalgia with his treatment Cicatrizology. Book deliveries and merchandise start before midterms, and signed copies by Thanksgiving.

This list is a starting line. Many ideas have been overlooked. Republicans generate hate which creates a vicious cycle and empowers the instigator Republicans. Trump is trying to use economic oppression and biological warfare by reducing vaccinations in America to eliminate masses of people without resorting to Hitler's methods. Overtime, the Trump Kingdom would eliminate successive generations until a latest generation is completely subservient to Barron Trump. Putin is killing men in Ukraine. The goal is the same; reduce the population and generate a new obedient generation. Trump accounts are for growing a new generation that would only know Trump's mythology.

∫PEACEFUL SECULAR DEMOCRATS E PLURIBUS UNUM ∫ HAPPY NEW YEAR 250 CCL ΣN' USA∫

~~Moritz competition Boundless San Francisco is an opportunity to demonstrate and refine some of these bullet points if Kyle is able to fund a lawyer in Fresno and incorporate a company before September eleventh.~~ Also he needs to register politically. Obviously Kyle's abusive biological family will not invest; they wouldn't even tell him his killer brother Dale died last year. Are they forever repugnant republican baby-boomer abusers or can the spell be broken? The Repuglicans have a death grip on the minds of baby-boomers since they were raised with the word god on the money. We can overcome their vileness. Good luck to us American Family. Long live the Peaceful Secular Democratic Republic of the United States of America.

Cheers my dears,

Kyle David Aaxton
