

Building Dreams!

A HOME CONSTRUCTION ADVENTURE

This is David.
He builds houses.

**David owns a family
business where everyone
pitches in.**

One day, a family came to David.
They wanted a special home just for them.
"What should we put in it?" asked David.

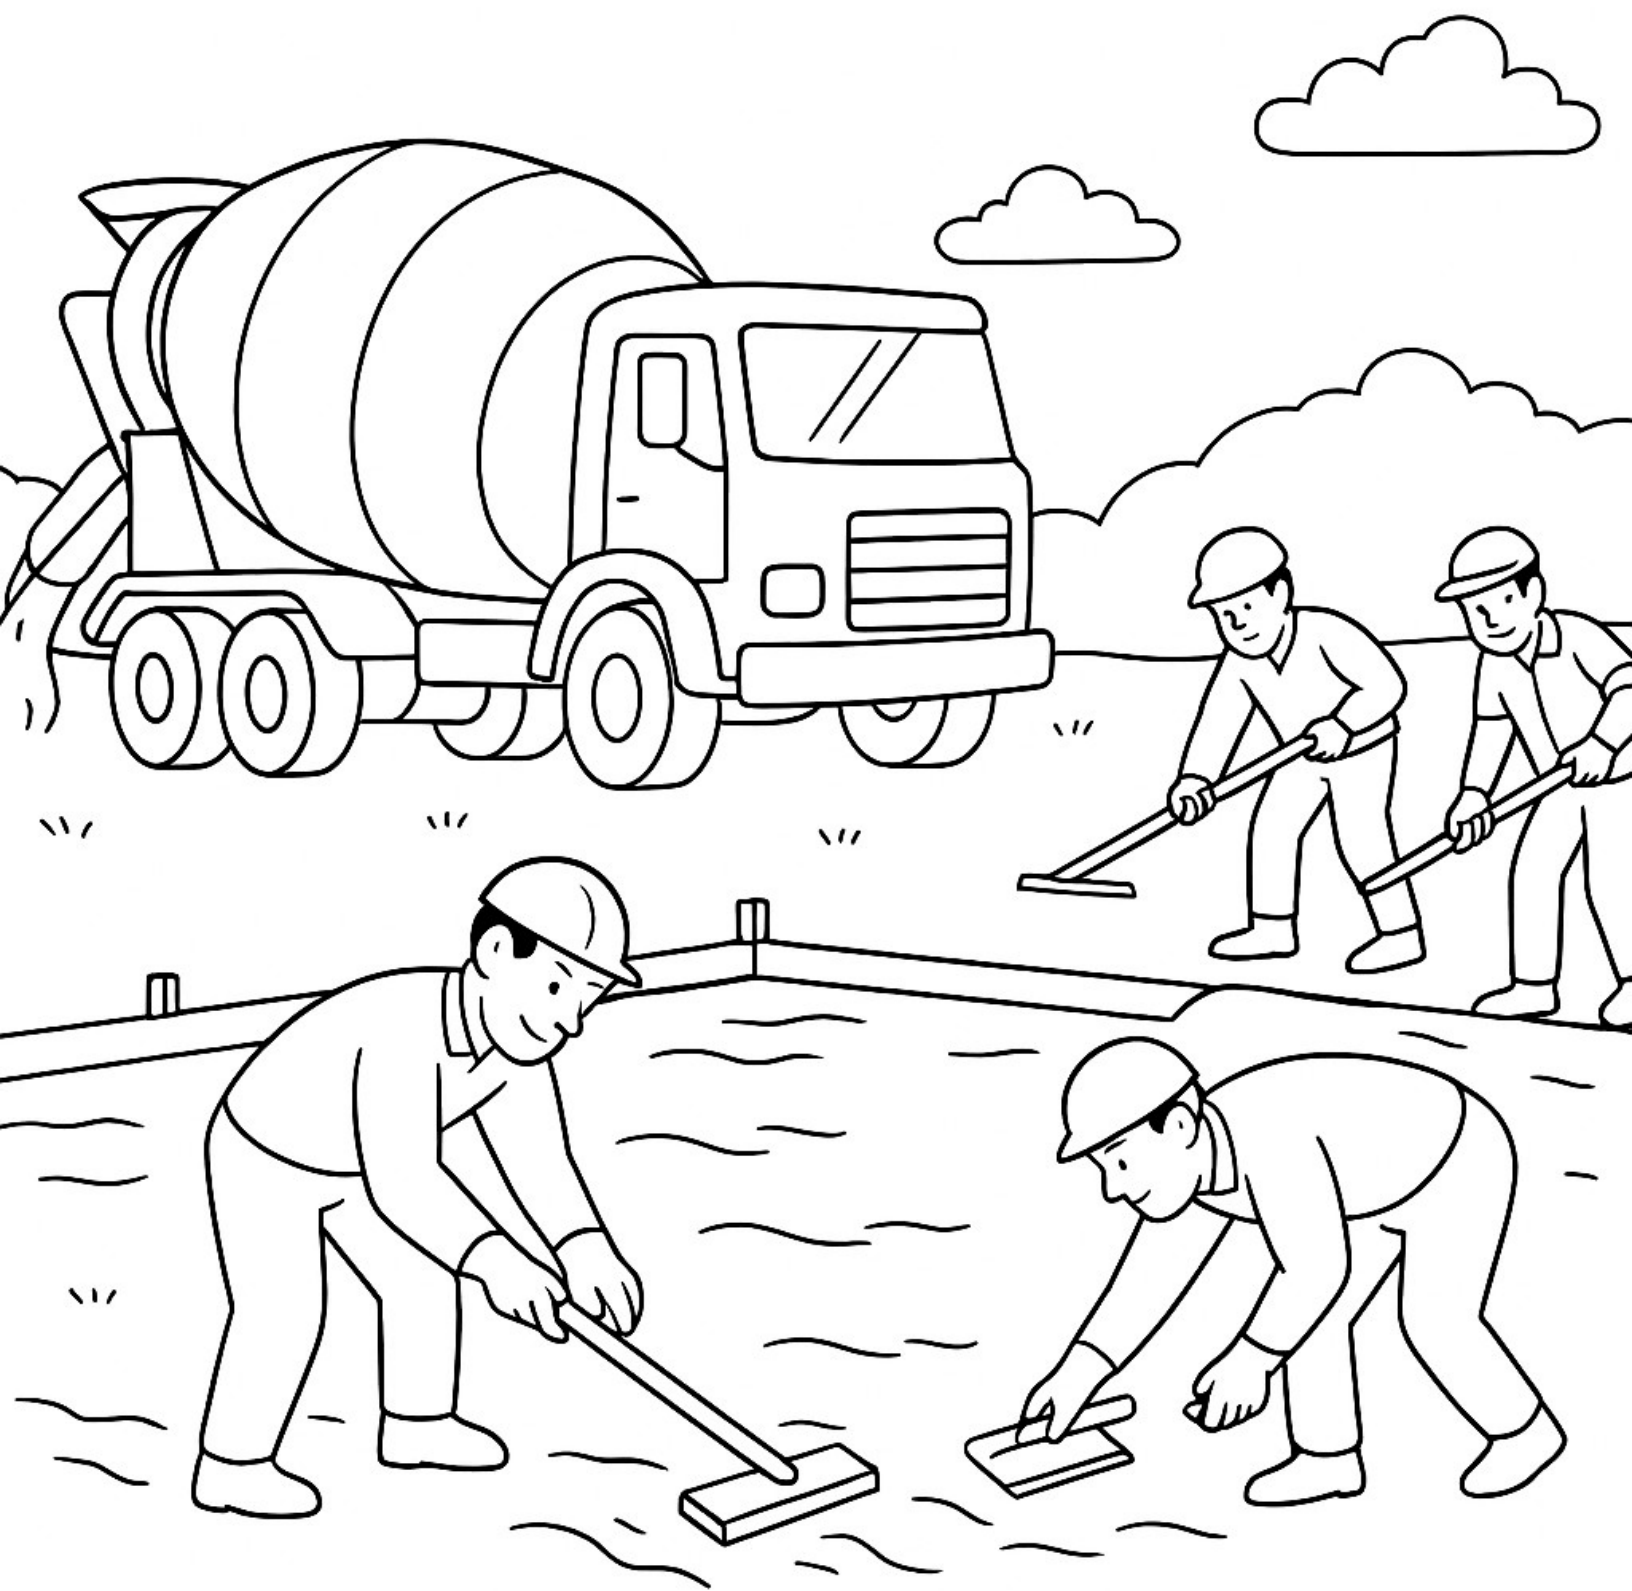

**David drew the plans.
These are called blueprints.**

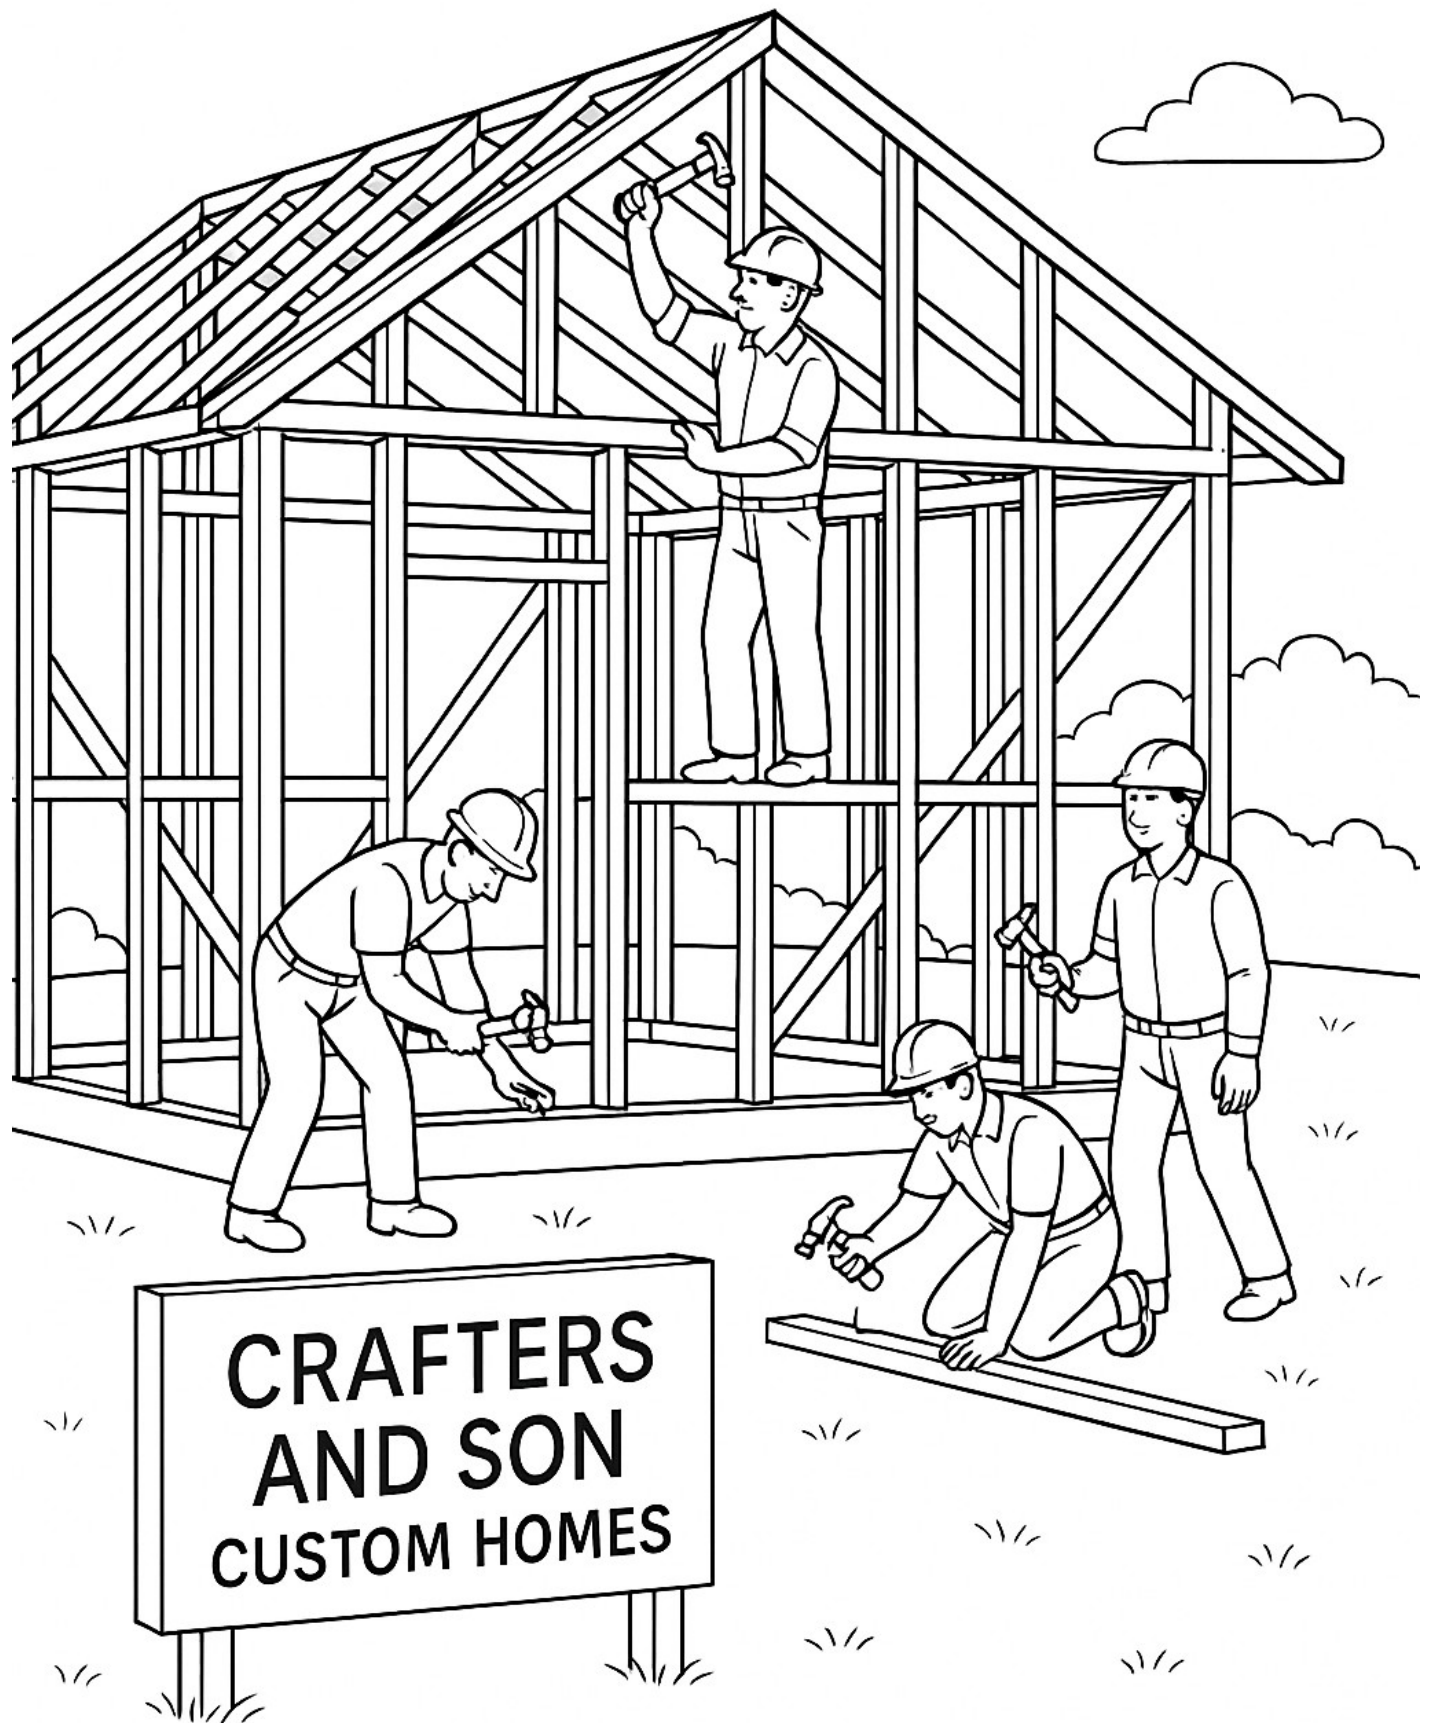

**The family picked colors
and floors with a designer.**

First, they poured the concrete.
That makes the house strong.

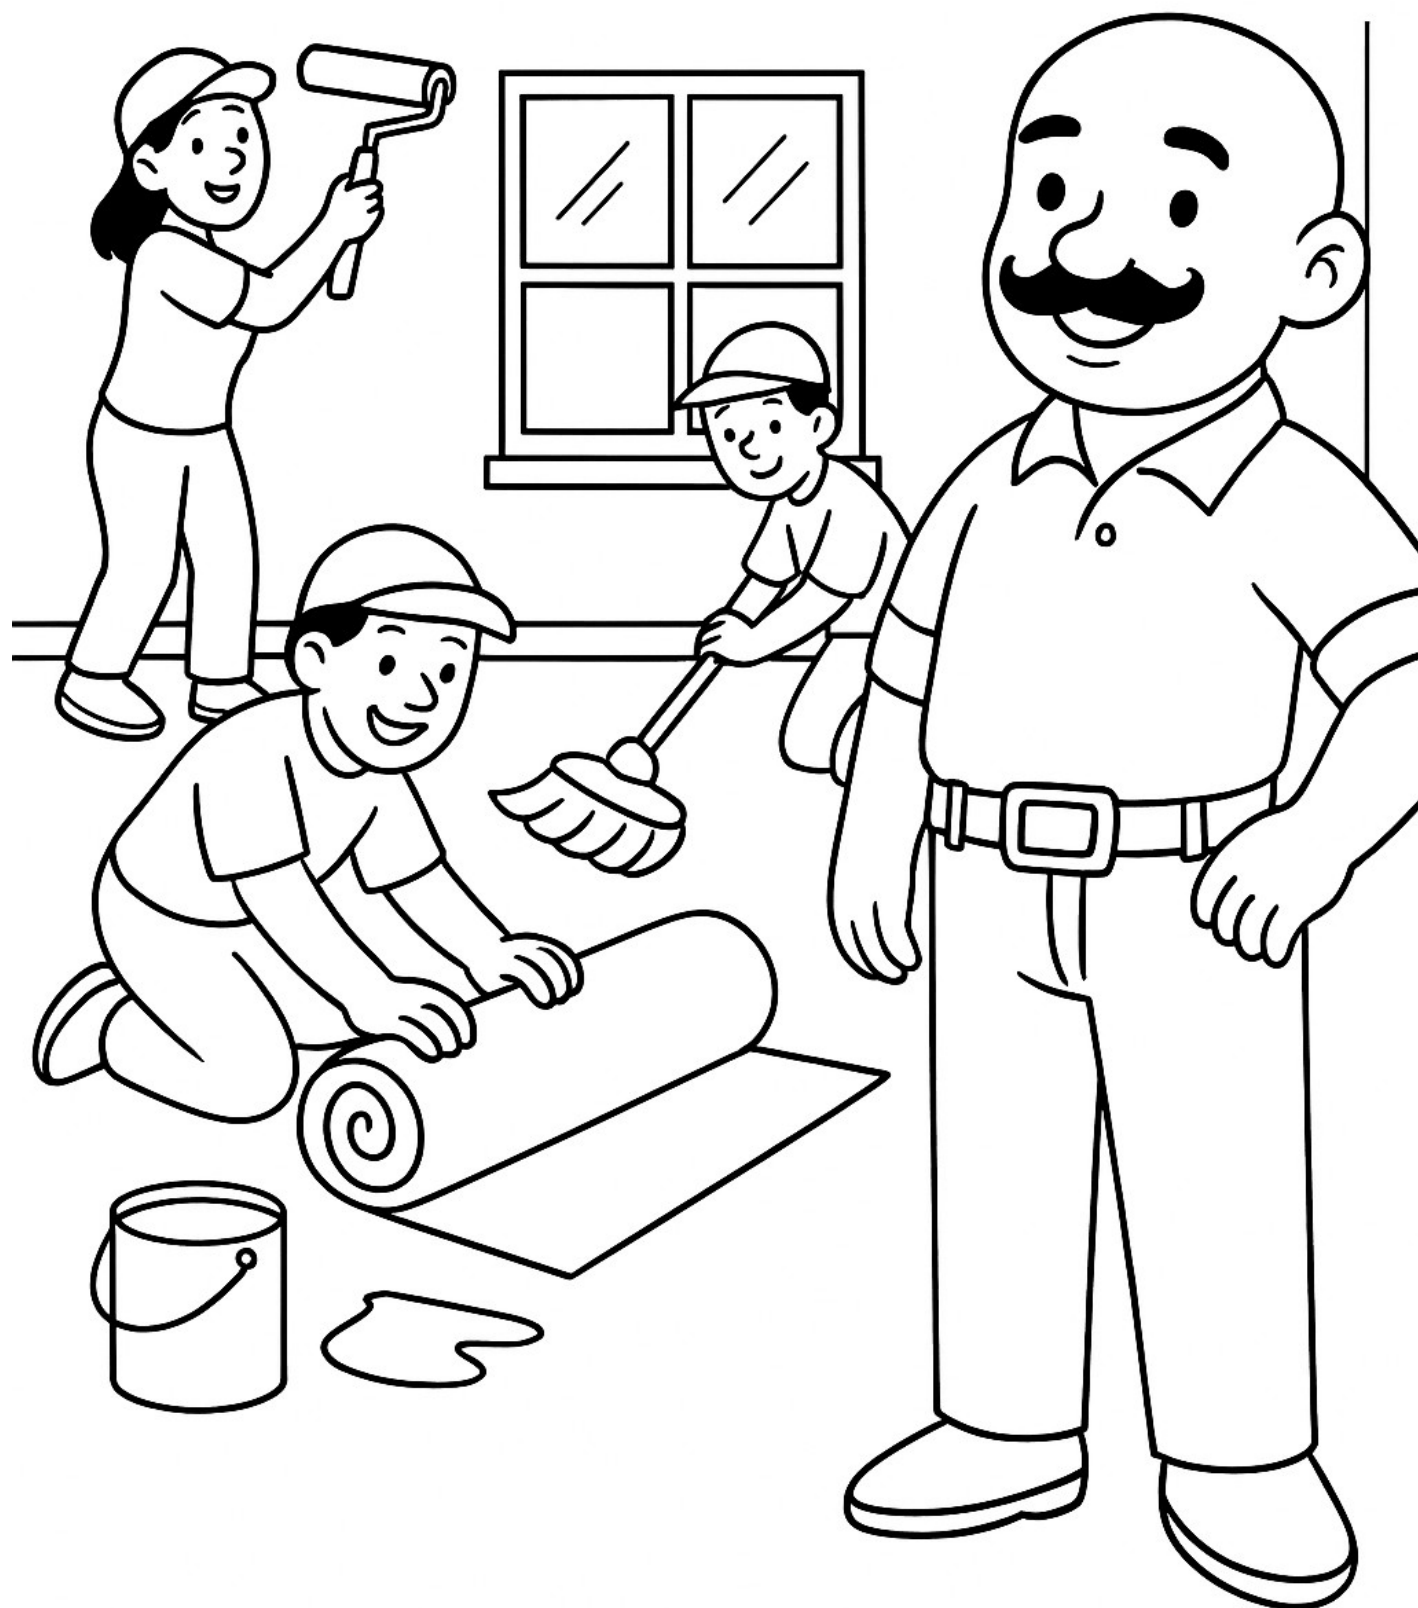

Next, they built the wooden frame.
The house started to grow.

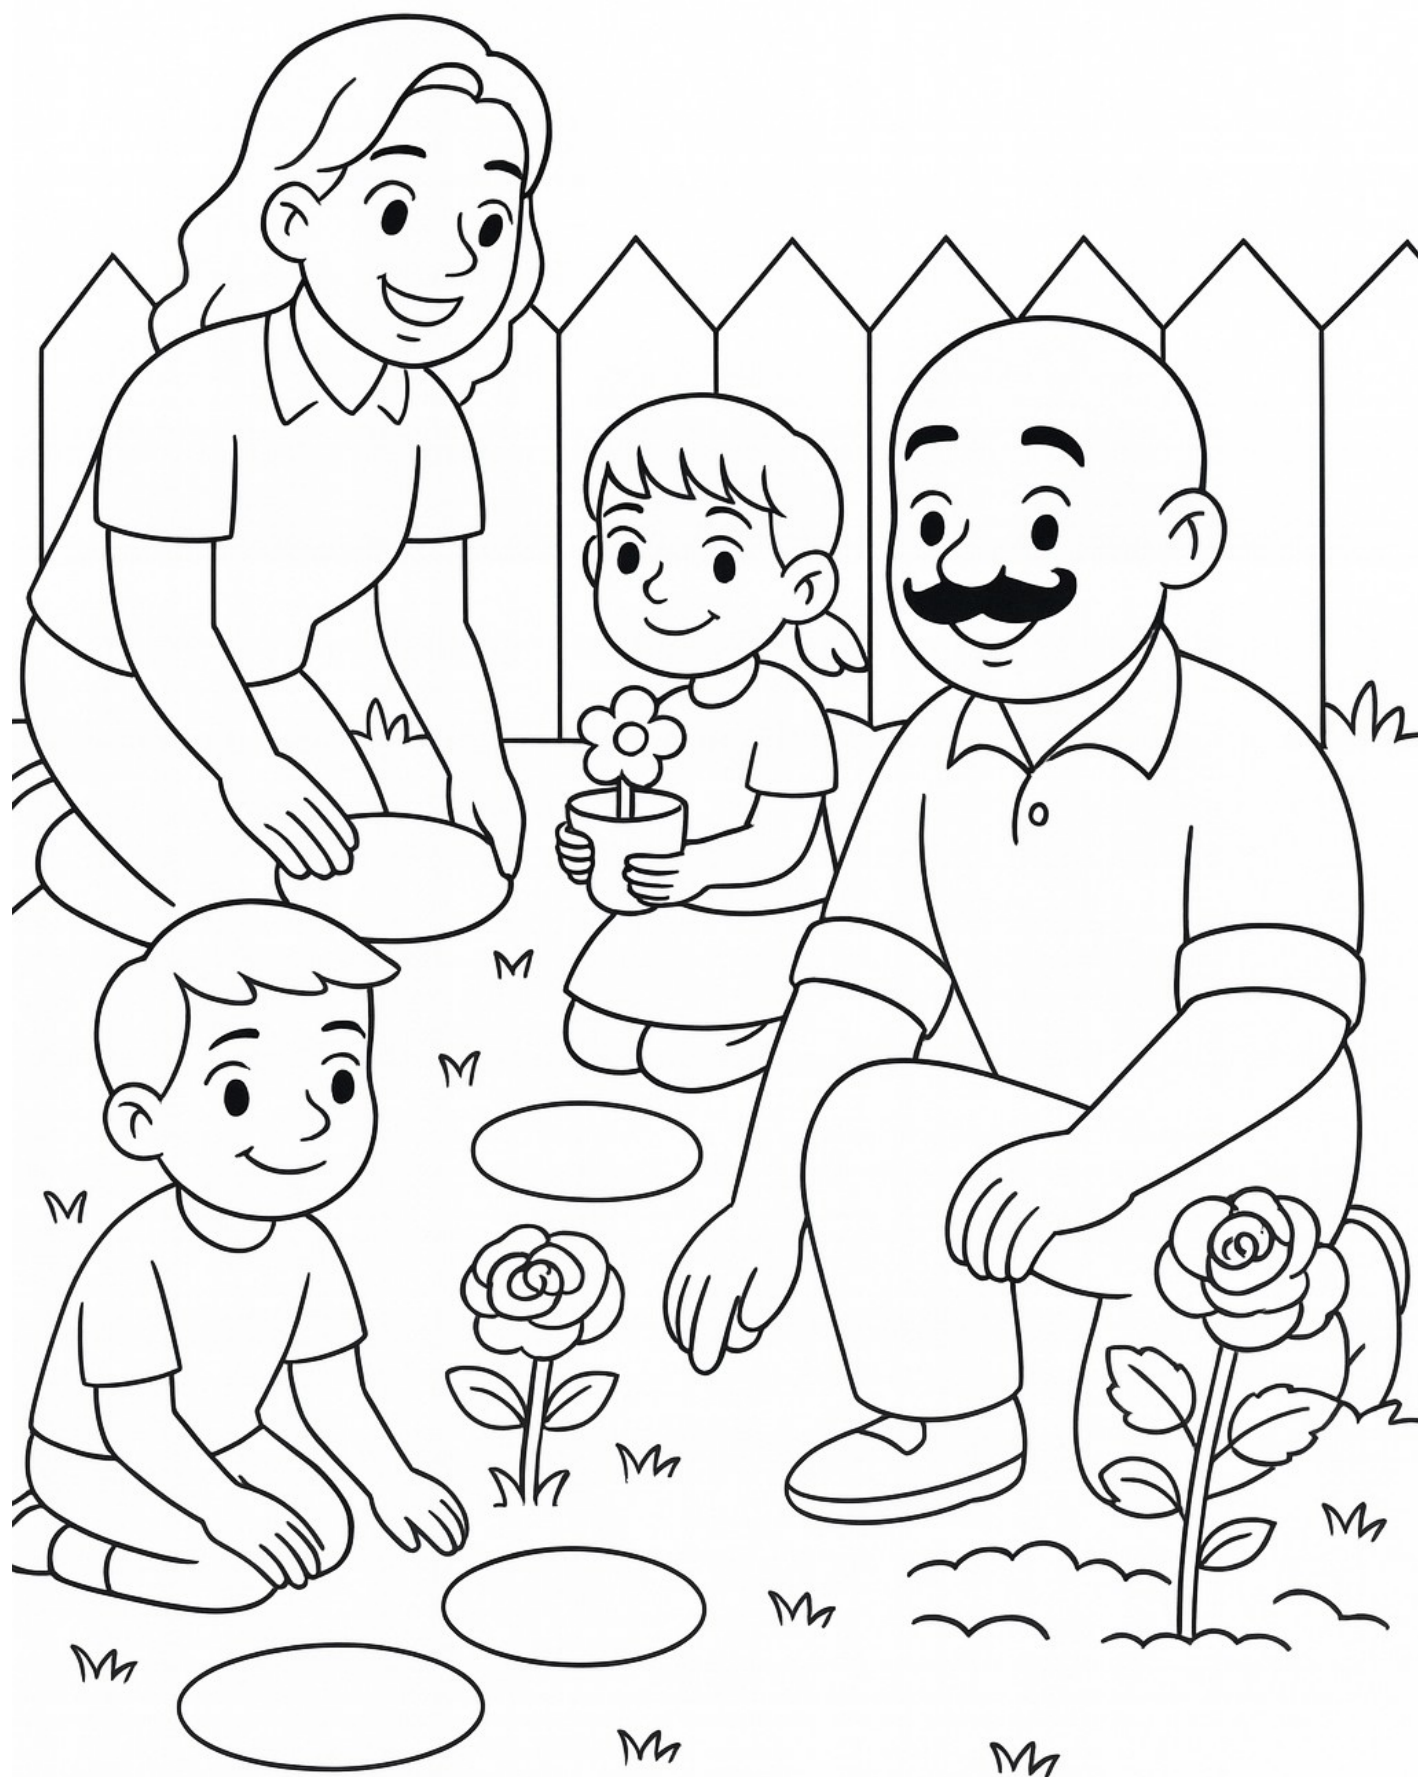

The roof went on, and the walls stood tall.

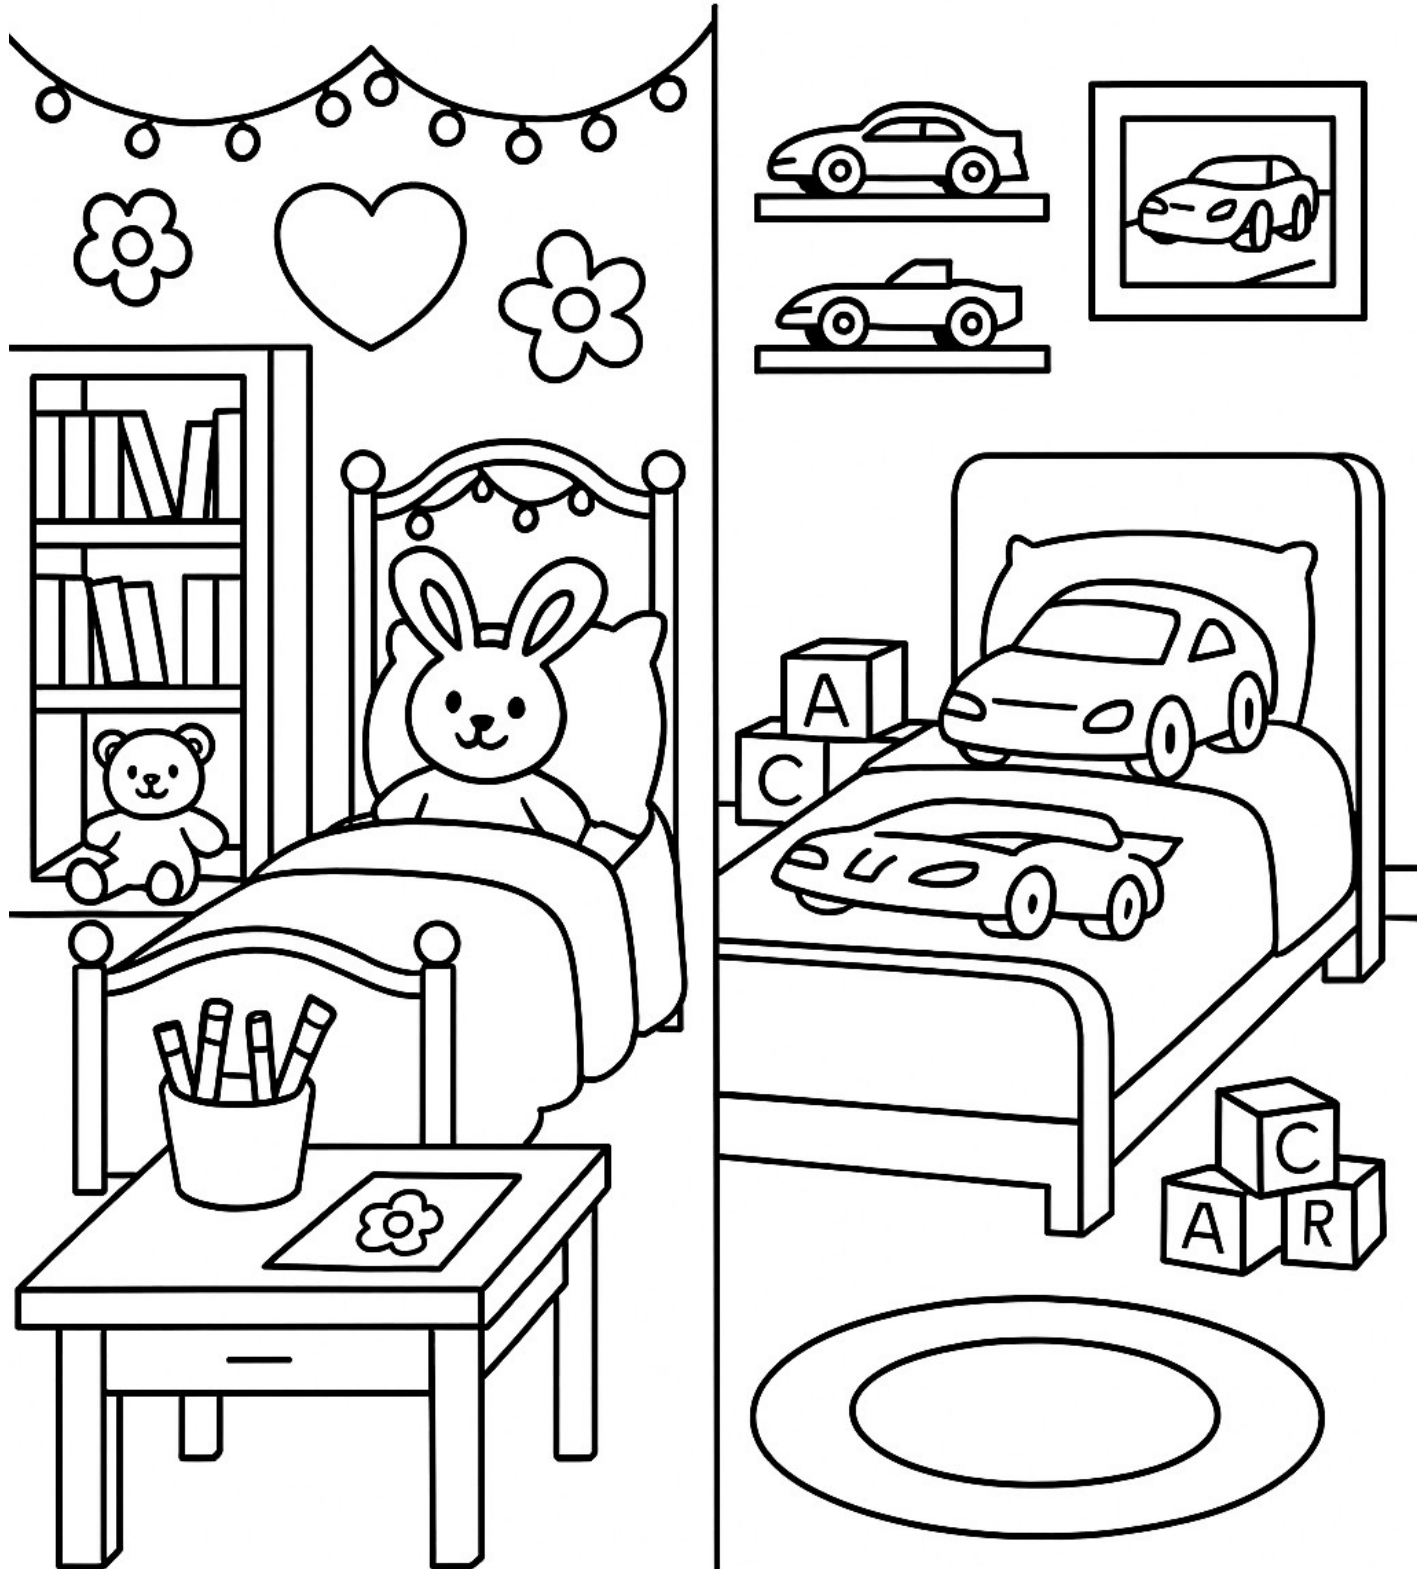

David's team painted, laid flooring, and worked hard making this house a home.

**Outside, they planted
flowers too.**

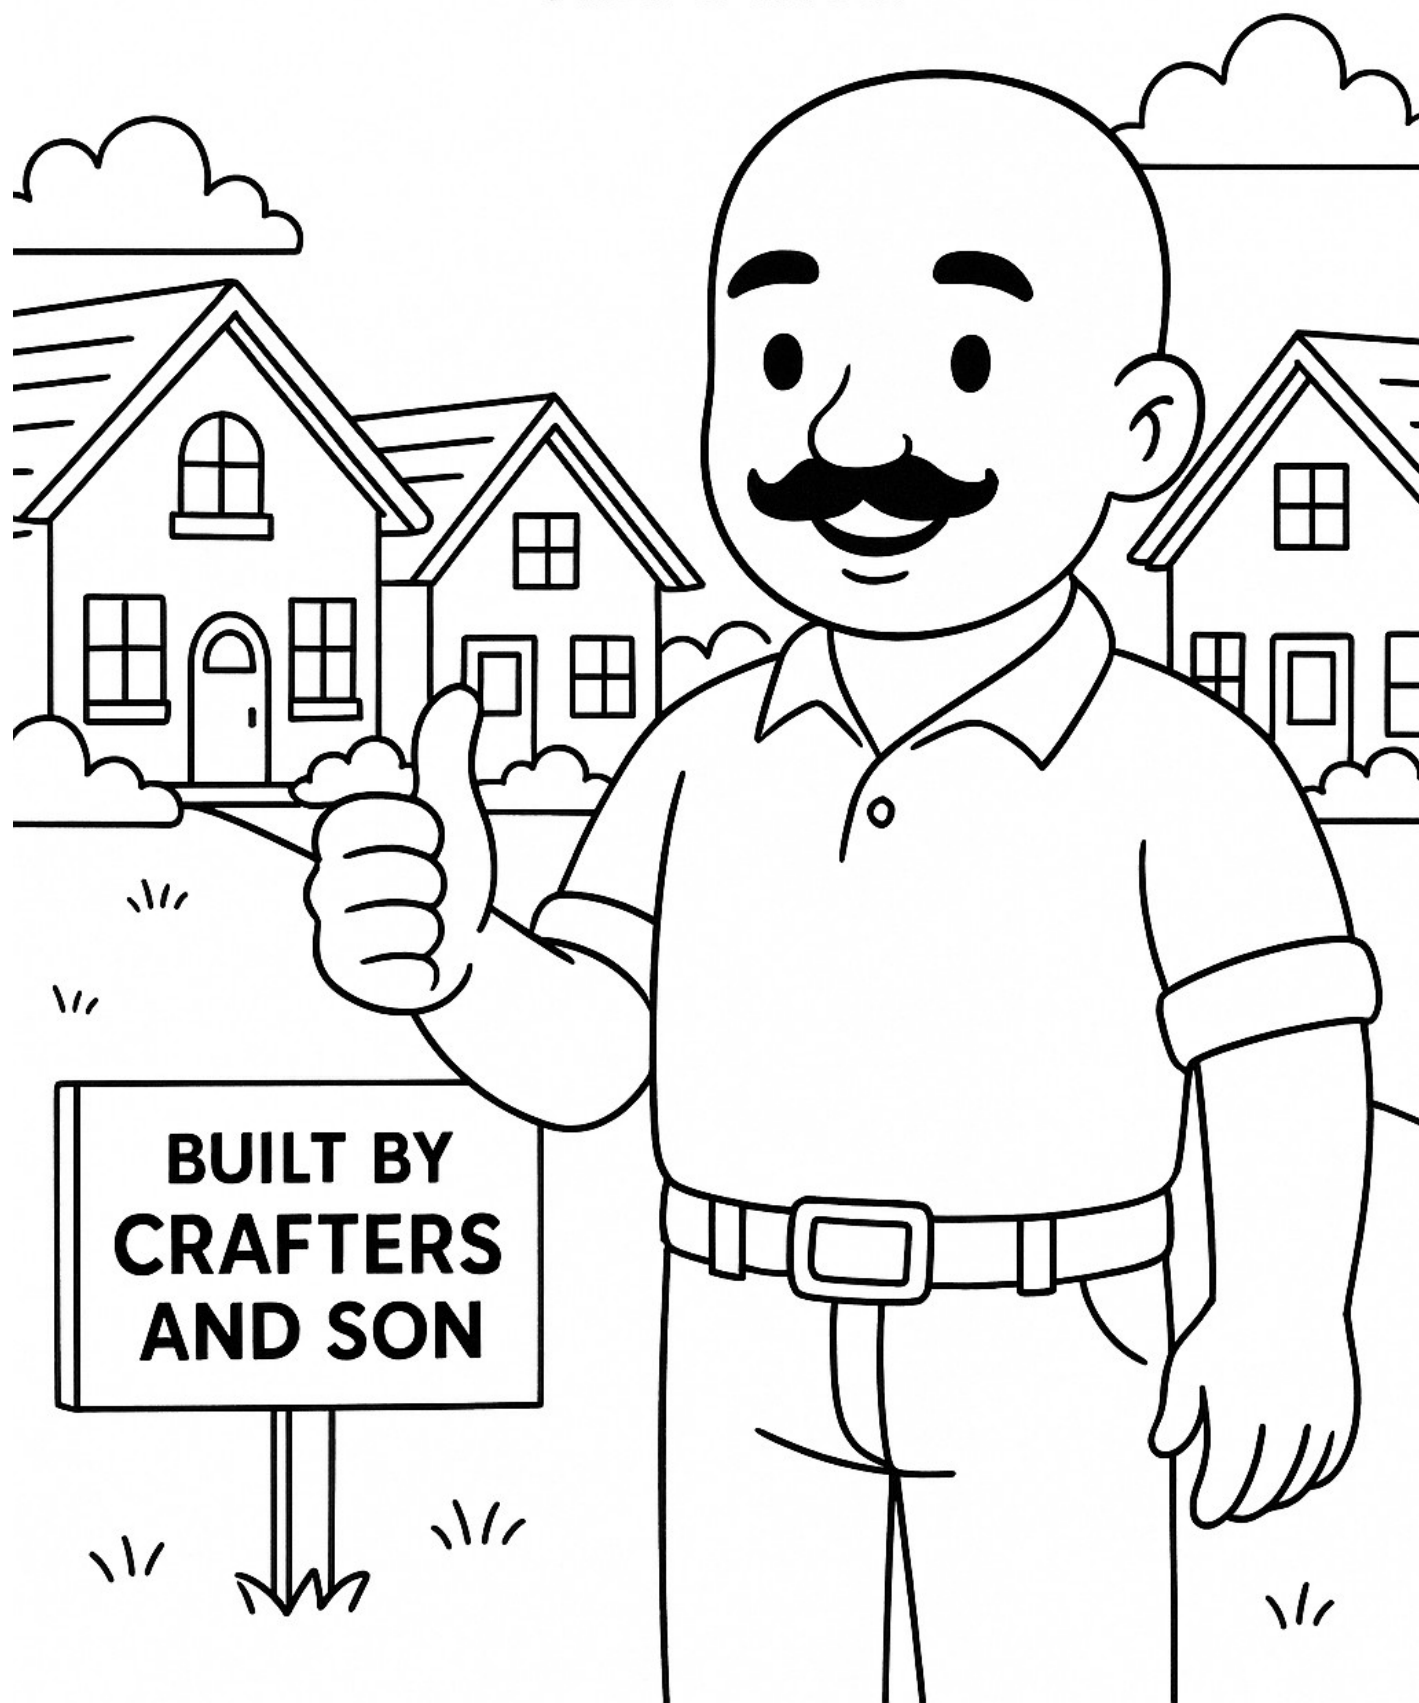

**The kids each got a bedroom to fill
with their toys and books. Every
space was made special—
just for them.**

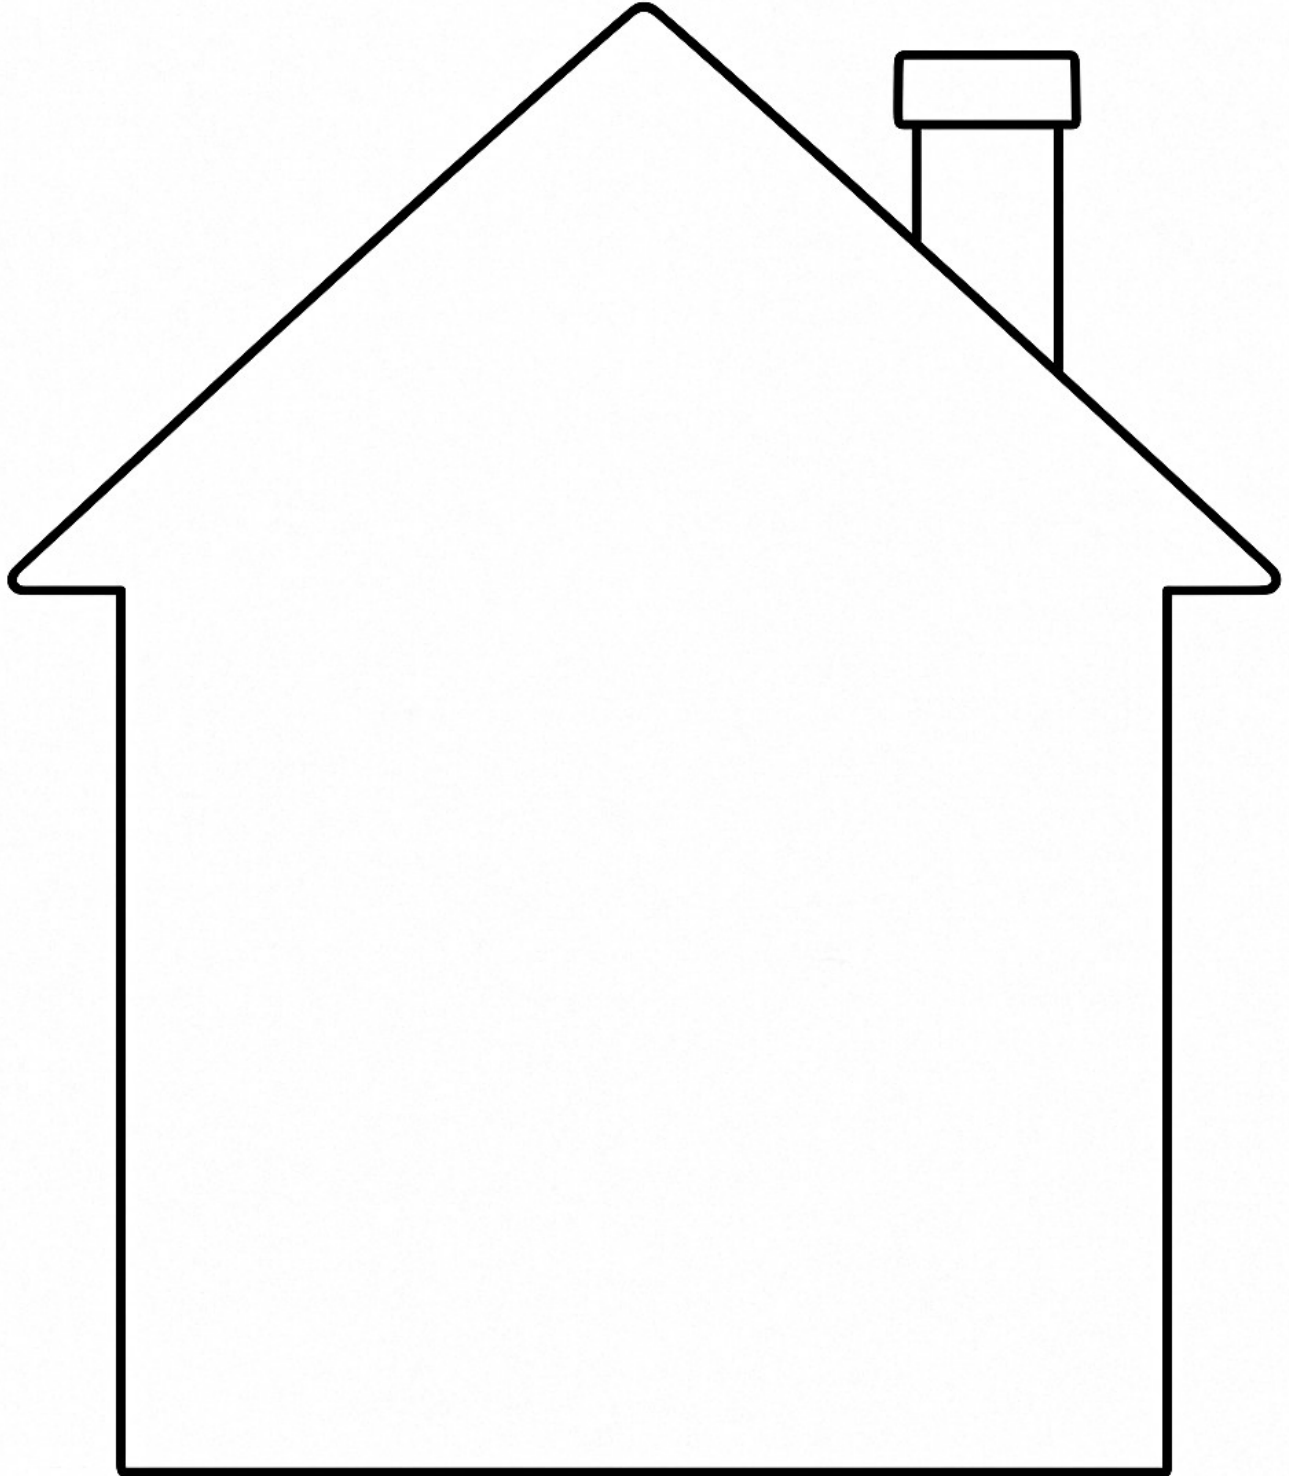

At last, the house was done!
“We built this together,” said David.

**At Crafters and Son Custom Homes,
every home tells a story.
“We build each one like it’s our own.”
Said David.**

Now it's your turn!
What would you put in
your dream home?
