

# THE OTHER SIDE

## Our recommendation for those looking for something off the beaten track

Less famous than some of its counterparts Tsavo East is a fantastic park to explore: It has smaller crowds, but you still have the chance to see the Big 5! Amboseli national park has a beautiful backdrop of towering Kilimanjaro!

### 1 Amboseli National Park

Elephants and views!

After breakfast we drive down to the national park to check into our rooms, the hotel has a swimming pool and its own platform over a watering hole. Those who would like can head out on an evening game drive to explore the park.

### 2 Morning Madness

The adventure continues

We have an early start on the reserve this morning. On the lookout for large tuskers and other species that live in the park. After a picnic lunch we will make our way over to Voi to check into the new hotel which has a spectacular view over a watering hole and multiple swimming pools.

### 3 Full day on the reserve

Painted dogs? Zebra? Lions?!

Ready for a full day of wildlife spotting? Tsavo East is one of the only national parks in Kenya with the chance of seeing the critically endangered Wild Dogs, keep your fingers and toes crossed.

### 4 Half & Half?

Choices choices!

After a few crazy days you have a choice to take the day at a more relaxed pace, you can pick when you would like to hit the reserve for some wildlife spotting. We come back for lunch so you can choose to join for the morning or evening trip or both if you would like! The other option is to have the day enjoying all the hotel has to offer.

### 5 Early Morning & Hard goodbyes!

On our last day we are heading out into the reserve for one last morning of wildlife spotting. After we take the drive back to Nairobi to check into the hotel and have one last group dinner before flights the next day.

Leave feeling energised with a camera roll filled with fantastic photos!
