

WHO are we?

WE ARE HELEN AND SAM!

We believe we are the best of both worlds: Two friends from different walks of life – A brit with a passion for travel and a Kenyan local who share a passion for nature.

We provide affordable trips planned for you from start to finish following tried and tested itineraries offering the best chance to encounter multiple species in a manner of fun and exciting ways

Our Vision

To help more people experience the joys of nature with the aim that we protect what we love! (and who comes to Kenya and doesn't fall in love with the abundance of wildlife on offer? from the mighty Lions to the tiny Geckos running around protecting you from mosquitos)

We do this by providing affordable trips planned for you from start to finish following tried and tested itineraries offering the best chance to encounter multiple species in a manner of fun and exciting ways. Unlike most other companies our group tours have you covered from start to finish. We include as standard airport pick up and drop off, accommodation before and after (much more relaxing) land cruisers for optimal visibility and don't crowd them. A little more in depth about us:

Helen

With two degrees (Wildlife Education and Media and Applied Zoology) Helen brings to the team over 20 years of experience working with animals from Equestrian Assistant to Zookeeper. Her main hobbies include going on holiday to try and see different species, bothering her friends to go on those holidays and photography. Having been to over 60 countries she's seen her fair share of hotels and holiday nightmares and uses her experience to help avoid those for others.

Sam

Raised between both Thika and Nakuru Sam perused studies at the Regional Centre for Tourism and Foreign Languages at Utalii College, building a strong foundation in hospitality and tourism. He has over six years of experience as a tour guide—including time at a renowned camp in the Maasai Mara. His career has also took him international, where he worked as a tour consultant with North Tours in Dubai and served as Head of Reception. He has developed deep knowledge of wildlife and exceptional guest service skills.
