

History of All People Live LLC

Executive Overview

All People Live LLC is a social enterprise founded to build global harmony, bypass bureaucratic friction, and solve complex systemic issues through the powerful intersection of communication, systems thinking, and the arts. Established as a vehicle for meaningful humanitarian impact through the arts, systems to stop body counts in conflicts, the organization operates under a unique framework designed to address root-cause societal challenges without creating unintended secondary problems relating to world peace.

Key Milestones & Evolution

Early 2026: Foundation and Structural Definition

The organization was formally established in early 2026. Rather than adopting a traditional corporate hierarchy, the enterprise structured its leadership to reflect its operational philosophy. Key leadership designations were established, including **Secretary General & Chief Impact Officer**, ensuring that every organizational initiative is explicitly tied to measurable social transformation and global outreach.

Spring 2026: Framework Development

A core intellectual pillar of the organization was finalized in the spring of 2026: the **Solution Vortex Problem** framework. Grounded in advanced organizational systems logic, this framework was developed to analyze how information flows through complex environments. It serves as an analytical tool to diagnose systemic failures and design elegant, sustainable solutions. In May 2026, this foundational methodology was formally dedicated to the enduring legacy and humanitarian spirit of Holocaust survivor and peace activist Eva Schloss.

May 2026: Launch of Global Initiatives

To translate its philosophical frameworks into widespread action, All People Live LLC launched its signature cultural initiative in May 2026: the **World Peace Writing Competition**. Designed as a recurring global event, the competition invites voices from all walks of life to contribute narratives centered on international harmony, unity, and hope, utilizing the arts as a universal language to transcend geographic and political divides.

Core Operational Philosophy

All People Live LLC operates on three guiding principles:

- **Plain Language Communication:** Bypassing dense, exclusionary jargon to ensure that high-level humanitarian and systems-level concepts are accessible, practical, and actionable for everyone.
- **Systems Thinking:** Analyzing global and local challenges as interconnected webs, ensuring solutions are holistic rather than temporary fixes.
- **The Arts as a Catalyst:** Utilizing literature, theatre, and creative expression to build cross-cultural empathy and drive intent-driven social evolution.
