2 Acceptance of the Order; Applicable Terms

- a. Seller shall be deemed to have accepted the order and to have formed a contract based exclusively on the order, including these terms and conditions of purchase, when Seller does any of the following: (1) begins performance under the order; (2) acknowledges the order; or (3) engages in any other conduct that recognizes the existence of a contract with respect to the subject matter of the order.
- b. Buyer's order is limited to and conditioned upon Seller's acceptance of these terms and conditions of purchase exclusively. Buyer hereby objects to and rejects any proposal by Seller for additional or different terms.

3 Supply and Delivery

- a. Unless the Order requires Seller to manufacture, ship and/or provide a specified quantity of Goods, the Order requires Seller to supply Buyer's reasonable requirements for the Goods in such quantities as identified by Buyer in delivery schedules, material authorization releases, manifests, broadcasts or similar releases ("Delivery Schedules") that are transmitted to Seller during the term of the Order, and Seller shall supply all such Goods on such dates and times, at the price and on the other terms specified in the Order. Delivery Schedules are part of the Order and are governed by these Terms and Conditions of Purchase. Seller accepts the risk associated with lead times of required raw materials and/or components if they are beyond those provided in Delivery Schedules.
- b. Buyer's quantity requirements for the Goods are determined by the needs of Buyer's customers and such needs may change from time to time. Any volumes provided by Buyer to Seller, including, without limitation, volumes identified as projected or estimated or quantities noted as "planning", "forecast" or with words of similar meaning, including forecasted volumes in any requests for quotation, are for planning purposes only and do not represent a commitment or obligation to purchase a specified quantity. Unless otherwise stated in the Order or related Delivery Schedules, Buyer makes no representation, warranty, guaranty or commitment of any kind or nature, whether express or implied, to Seller with respect to Buyer's quantity requirements. Upon reasonable request by Buyer, Seller shall assist Buyer in establishing an appropriate safety stock in accordance with Buyer's requirements, thereby reducing the supply cycle time. For the avoidance of doubt, the supply of the Goods by Seller to Buyer shall not be exclusive, and Buyer may at its discretion at any time engage any third parties to supply it with similar goods.
- c. Delivery times and quantities are of the essence under the Order. Seller agrees to 100% on-time delivery of the quantities and at the times specified in the Order or related Delivery Schedules.
- d. Upon Seller determining that it may not be able to meet the required delivery time and quantity, Seller shall: (i) promptly inform Buyer thereof; such notice is without prejudice to Seller's continuing obligation to meet the required delivery time and quantity; and (ii) take all necessary measures at its own expense, including without limitation, special transportation, additional human resource, overtime or night working, shift operation, working on weekends and national holidays, so as to meet the required delivery time and quantity.
- e. If Seller's deliveries fail to meet the required delivery time and quantity, Buyer may: (i) withhold any payment due under the Order until all delayed quantities have been fully delivered; (ii) direct expedited routing and charge Seller for any excess costs and expenses incurred as a result; (iii) purchase similar goods from other sources and reduce its purchases of Goods from Seller by the delayed quantities, without liability to Seller, or have Seller provide the delayed quantities of the Goods from other sources at the price and on the other terms set forth in the Order; and (iv) charge Seller for any costs and expenses incurred by Buyer and/or Buyer's customers for production delays or stoppages caused by Seller's failure to meet the required delivery time and quantity; such costs and expenses may include, without limitation, inbound and outbound premium freight, excess scrap premium, operational and overtime expenses.
- f. Unless otherwise stated in the Order or related Delivery Schedules, Seller shall deliver the Goods in accordance with FCA Incoterms 2010 to the place of delivery specified in the Order or related Delivery Schedules, or as otherwise specified by Buyer.
- g. Seller shall comply with the additional terms and conditions contained in the applicable Logistic Agreements. Buyer reserves the right at its discretion to revise or amend the applicable Logistic Agreements from time to time. Any such revised or amended Logistic Agreements, as applicable, will be made available to Seller, and shall thereafter govern the Order.
- h. Buyer shall not be liable for Seller's commitments or production arrangements in excess of the quantity or in advance of the time required under the Order or related Delivery Schedules. If Seller delivers Goods in excess of the quantity or in advance of the time required under the Order or related Delivery Schedules, Buyer may either: (i) return such Goods at Seller's expense for proper delivery; or (ii) place such Goods in storage for Seller's account until the scheduled delivery date. In all cases of the preceding sentence, the Goods shall be at Seller's risk and shall be deemed not yet delivered before the scheduled delivery date.

- i. Unless otherwise agreed in writing between Seller and Buyer, title and risk of loss relating to the Goods shall pass to Buyer when the Goods have been delivered in the condition and to the address specified in the Order or related Delivery Schedules, and an authorized representative of Buyer has signed for delivery of the Goods or accepted the Seller's services, as applicable. All risk of loss relating to the Goods shall remain with Seller prior to such time. No "reservation of title" clause requested by Seller may be invoked or raised against Buyer unless it has been accepted in writing by Buyer. SELLER AGREES NOT TO STIPULATE TO ANY RESERVATION OF TITLE CLAUSE IN FAVOR OF ANY OF ITS SUBCONTRACTORS OR SUPPLIERS OF ANY COMPONENTS OR MATERIALS INCORPORATED INTO GOODS SOLD TO BUYER UNDER THE ORDER.
- j. In case of delay of delivery, Seller shall, in any case, pay to Buyer liquidated damages equaling to 0.3% the total value of the delayed Goods for each calendar day overdue. If such liquidated damages does not suffice to compensate for the losses that Buyer has suffered from or in connection with such default (including without limitation any liquidated damages or compensations Buyer has to pay to Buyer's customers or any third party), Seller shall further pay to Buyer the difference between the liquidated damages and the foregoing losses, and all such remedies shall not affect the rights and remedies granted to Buyer under these Terms and Conditions of Purchase or applicable laws and regulations.

4. **Packaging**

- a. Seller shall supply the Goods in packaging so as to appropriately protect the Goods during transportation and storage, which shall at least meet the standards specified in the Order, the applicable Logistic Agreements, or as otherwise specified by Buyer.
- b. Where the Order expressly permits returnable packaging to be billed separately by Seller: (i) Seller shall not charge more than its actual cost as of the date the Order is issued; (ii) Seller shall invoice for returnable packaging separately; and (iii) each invoice will be credited upon return of the packaging by Buyer to Seller or its carrier.
- c. Unless otherwise stated in the Order, the price for the Goods shall include the costs of all non-returnable packaging.
- d. Seller shall mark each individual container with the applicable Order number, Buyer's part and drawing numbers (where applicable), description, quantity, and any other markings specified by Buyer.
- e. All shipping papers and packing for production and non-production Goods shall comply with all governmental regulations of Buyer's country.

5. **Export and Trade Regulations**

- a. Seller shall promptly inform Buyer in writing should a permit be required for all or part of the delivery item or should the delivery item be subject to (re-)export controls regulations, and shall provide Buyer with all necessary information and documentation in this regard
- b. Seller shall inform Buyer about the preferential origin of Goods and compliance with the origin of Goods rules for preferential trade. Seller shall produce and submit the relevant proof in this regard. Seller shall bear all costs and expenses (e.g. customs duties) arising from the failure to submit preference certificates. Seller shall make reliable statements about the trade origin (according to the ISO-ALPHA-2 code) of the delivered Goods and submit relevant proof in this regard if required. If Seller has its registered office in the European Union or Turkey, Seller shall provide proof of the preferential status of the Goods in the form of a Seller's declaration with the wording laid down by law, if possible by way of a long-term Seller's declaration. Seller's declarations that do not comply with the statutory requirements shall not be accepted. Seller shall promptly inform Buyer in writing should a declaration on preferential status or trade origin cease to apply, in whole or in part, or should the circumstances change.
- c. Seller shall ensure that the Goods are supplied to Buyer on time by participating in the relevant international security programs (e.g. C-TPAT/AEO/KC Air Cargo Security). Seller shall ensure that Goods that are manufactured, stored or shipped for Buyer, delivered to Buyer or taken over from Buyer: (i) are manufactured, stored, treated or processed and loaded on secure business premises and at secure transshipment sites; (ii) are protected against unauthorized access during manufacture, storage, treatment or processing, loading and shipment; (iii) that the personnel responsible for manufacturing, storing, treating or processing, loading, shipping and taking over such Goods are reliable; and (iv) that business partners who act on behalf of Seller have been informed that they must take measures to secure the aforesaid supply chain.
- d. In the event Buyer instructs Seller to use Buyer's trademarks in connection with the PRODUCTS, Buyer will not pay a royalty for such trademark use, and Buyer will issue an affidavit acknowledging such lack of royalty at the request of Seller.

6. **Payments; Pricing**

- a. Buyer will pay the prices stipulated on the Order for Goods delivered and accepted, less deductions, if any, as herein provided, but only: (i) upon submission by Seller of an invoice issued by Seller to Buyer following delivery of the Goods covered by the invoice, and then payment will be made within the payment period defined in the applicable Country-Specific Provisions (Part B); or (ii) pursuant to other mutually agreed-upon written arrangements.
- b. Unless otherwise stated on the Order, the price of Goods stated on the Order is complete and includes storage, handling, packaging, labelling, transportation and all other expenses and charges of Seller, and no surcharges, premiums or other additional charges of any type shall be added without Buyer's express written consent. Prices are not subject to increase, unless specifically stated in the Order, and Seller assumes the risk of any event or cause affecting prices, including without limitation, foreign exchange rates, increases in raw material costs, inflation, any decreases in Buyer's requirements for Goods under the Order, increases in labor and other production and supply costs, and any other event which impacts the price or availability of materials or supplies.
- c. Seller's prices shall be exclusive of any taxes levied upon, or measured by, the sale, the sales price, or use of the Goods. Seller shall list separately on its invoice any such tax lawfully applicable to the Goods and payable by Buyer with respect to which Buyer does not furnish to Seller lawful evidence of exemption.
- d. Seller represents that the price charged for the Goods stated on the Order is the lowest price charged for the Goods to purchasers of a class similar to Buyer, under conditions similar to those of Buyer, and that the price for such Goods complies with all applicable laws and regulations.

- e. In addition to any right of setoff or recoupment provided by law, all amounts due to Seller shall be considered net of indebtedness of Seller and its Affiliated Entities to Buyer and its Affiliated Entities. Buyer may set off against or recoup from any payment or other obligation owed to Seller, in whole or in part, any amounts due to Buyer or its Affiliated Entities from Seller or its Affiliated Entities.
- f. In the event that the price of Goods will be updated and negotiated regularly, Seller shall not stop or suspend supply/delivery just because the price of Goods is still under negotiation or discussion, otherwise any nonfulfillment of Seller will be deemed as late delivery. Seller and Buyer will decide the effective date for the new price.

7. **Quality Management**

- a. Seller shall maintain an inspection and quality system acceptable to Buyer and in conformity with all drawings, specifications and data that are referred to or incorporated into the Order, and with any applicable international automotive quality standards and quality programs of Buyer including, without limitation, the applicable Quality Agreements, and shall comply with all other quality requirements stipulated in the applicable Quality Agreements. Buyer reserves the right at its discretion to revise or amend the applicable Quality Agreement from time to time. Any such revised or amended Quality Agreement, as applicable, will be made available to Seller, and shall thereafter govern the Order.
- b. Seller shall: (i) maintain adequate authenticated inspection and test reports, affidavits, and certifications relating to the work performed under the Order; (ii) retain such records for a period of fifteen (15) years after completion of the Order or as otherwise specified by Buyer; and (iii) make such records available to Buyer upon request.
- c. Seller shall provide to Buyer, free of charge, any product documents in relation to the quality, specifications, safe use, and storage conditions of the Goods, as reasonably requested by Buyer, including without limitation relevant inspection reports and certificates of quality.

8. **Inspection and Defects Notification; Acceptance of Goods**

- a. Buyer may inspect all Goods at all times and places, including during the period of manufacture. Such inspection may at Buyer's option include confirmation of Seller's compliance with required quality control procedures. Seller shall permit Buyer and/or its designees access to Seller's facilities and those of its sub-suppliers or subcontractors at all reasonable times and shall provide all tools, facilities and assistance reasonably necessary for such inspection and/or confirmation at no additional cost to Buyer.
- b. Upon receipt of the Goods Buyer will only inspect the Goods for obvious transport damage and discrepancies of identity and quantity of the delivery, and Buyer will notify to Seller any such damage or discrepancy without undue delay. Buyer will notify other discovered defects without undue delay upon their discovery. Buyer shall have no further inspection and defects notification obligations.
- c. Inspection of, use of or payment for delivered Goods shall not constitute acceptance thereof. Buyer may reject any Goods that are defective or do not meet Seller's product warranties, and may claim any rights and remedies available as a result of such defectiveness or non-conformance.
- d. Buyer's acceptance or inspection does not relieve Seller of any of its obligations or warranties. Nothing in the Order releases Seller from the obligation of testing, inspection and quality control.

9. **Product Warranties and Remedies**

- a. Seller expressly warrants that the Goods: (i) will be fit and sufficient for the purpose intended; (ii) will be brand-new, intact and genuine products; (iii) will be of merchantable quality and free from all defects, including defects in material and workmanship, and in design even if the design has been approved by Buyer; (iv) will conform with all representations, descriptions, samples, drawings, plans, standards, specifications, and designs furnished to or by Buyer and identified on or incorporated into the Order; (v) will conform with all statements regarding the quality, grade, performance or use of the Goods made by Seller or any of its subcontractors, agents or suppliers in advertisements or promotional materials; (vi) will conform to all applicable laws, orders, regulations and standards in countries where the Goods or products incorporating the Goods are to be sold; (vii) will be free of all liens, claims and encumbrances whatsoever, and will not impair, infringe, violate or misuse any patent right, utility model, industrial design, copyright, trademark, service mark, trade secret, know-how, or other intellectual property rights protected in countries where the Goods or products incorporating the Goods are to be sold; and (viii) at all times during the Term of the Order will remain competitive in terms of price, quality, delivery, technology and service. These warranties are in addition to those available to Buyer by law or in equity.
- b. Unless otherwise agreed in writing between Seller and Buyer, the warranty period during which the foregoing warranties apply shall be the longest of: (i) three years commencing on the date upon which Buyer accepts the Goods; (ii) the duration of the warranty period extended by Buyer to its customer with respect to the product into which the Goods have been incorporated; (iii) the warranty period provided by applicable law; or (iv) the warranty period offered by the OEM to end-users of products into which the Goods are incorporated, and provided further that if Buyer or Buyer's customer (or OEM, if different than Buyer's customer) voluntarily or pursuant to a governmental mandate, makes an offer to owners of products into which the Goods are incorporated to provide remedial action or to address a defect in products relating to the Goods, Seller's warranty shall continue for such period of time as may be dictated by Buyer's customer (or OEM, if different), or the governmental authority.
- c. Buyer's specifications and requirements take precedence over industry standards. Seller shall advise Buyer in writing if Buyer's specifications or requirements are not as rigorous or extensive as industry standards.
- d. In any case of delivery by Seller of defective or non-conforming Goods: (i) Seller shall, at Buyer's election and Seller's expense, promptly repair or replace all defective or non-conforming Goods; or (ii) In urgent cases Buyer itself or a third party directed by Buyer may, at Seller's expense, repair or replace defective or non-conforming Goods; Buyer will use reasonable efforts to inform Seller before such actions are taken; and (iii) Seller shall bear all costs and expenses required in connection with the replacement or repair of defective or non-conforming Goods, including

without limitation the costs for inspection, testing storage, transportation, travel, labor, materials as well as the costs for disassembly/removal and reassembly/reinstallation. Seller shall reimburse Buyer for all such costs and expenses incurred by Buyer.

- e. (e) In the event that repair or replacement of defective or non-conforming Goods fails or is unreasonable, Buyer may demand a reasonable price reduction or return all defective or non-conforming Goods to Buyer against reimbursement of the full price paid for such Goods.
- f. In addition to the rights and remedies set forth in the preceding Sections 9(d) and (e), Buyer may have claims, under these Terms and Conditions of Purchase or under applicable laws for indemnification of any further losses, expenses or damages incurred as a result of defective or non-conforming Goods.
- g. In the case of a serial defect (defects of the same type occurring in at least [5%] of the same type of Goods delivered), Buyer may assert its warranty rights and remedies under these Terms and Conditions of Purchase or under applicable laws in respect of the entire delivery of such Goods.

10. **Product Indemnification; General Indemnification**

- a. Seller shall indemnify, defend and hold harmless Buyer, its officers, employees, agents, successors, assigns, customers, and users of its products from and against any and all losses, expenses, damages, claims, suits and liabilities (including, without limitation, recall, repair and replacement expenses and other incidental and consequential damages, liquidated damages and contractual penalties, court costs, attorneys' and other professional fees, government imposed actions or liabilities) arising out of or relating to: (i) an actual or alleged breach of any express or implied warranty with respect to the Goods (including, without limitation, serial defects); (ii) an actual or alleged breach of any terms contained in the Order, including these Terms and Conditions of Purchase; (iii) any tort, negligence or other claims premised in whole or in part on either an actual or alleged defect in the Goods, including without limitation to personal injuries or property damages; (iv) an actual or alleged Breach; or (v) an actual or alleged infringement of applicable product liability laws based on such defects in Buyer's products that are reasonably attributable to the Goods.
- b. At Buyer's request, Seller shall assume promptly full responsibility for the defense of any action described in this Section to which may be brought or threatened by a third party against Seller and/or Buyer.
- c. Seller shall pay to Buyer as liquidated damages 8 % of the net invoice amount of the supplies affected by any culpable illegal conduct of Seller, which constitutes an unlawful restraint of competition according to applicable antitrust laws. Seller has the right to prove that Buyer suffered only less or no damages. Buyer has the right to prove that Buyer suffered higher damages. In such cases, Seller shall indemnify and hold Buyer harmless from any and all actually suffered damages. The foregoing obligations shall not prevent Buyer from any additional contractual or statutory rights, which shall remain unaffected by this provision. The obligation of this provision shall survive even if the Order is fulfilled or terminated.

11. **Precautionary Measures**

- a. If, based on Buyer's or Buyer's customer's (or OEM's, if different) risk analysis of repeatedly occurring defects of Buyer's products into which the Goods are incorporated, Buyer reasonably determines that the root cause of the defects is attributable to the Goods, and that there is a relevant risk of potential loss or damage as a result of further defects occurring due to the same root cause, Buyer may take appropriate Precautionary Measures.
- b. "Precautionary Measures" are measures which relate to all Goods that implicate the risk of potential loss or damage as described in the preceding paragraph, whether the individual Goods have actually be found to be defective or not, and which may include, without limitation, recalls or warnings, replacement, remodeling or retrofit, or other product safety measures, serial defect campaigns or other service actions.
- c. Seller shall reimburse Buyer for all reasonable costs and expenses incurred by Buyer in connection with Precautionary Measures initiated or carried out by Buyer or Buyer's customer (or OEM, if different). This reimbursement shall also include the reasonable costs and expenses incurred in determining the necessity, type and scope of the Precautionary Measure and attorneys' and court fees incurred in connection with the assessment or implementation of the Precautionary Measure.
- d. Buyer will use reasonable efforts to consult with Seller before Precautionary Measures are taken and to provide Seller the opportunity to comment thereon.

12. **Supplier Risk Management:**

- a. Seller commits itself to conduct a systematic risk management process with the aim, as far as possible, to identify and mitigate existence-threatening or other major risks with material impact on Buyer's business related to the delivery of the Seller's Goods to Buyer. The risk management process shall be aligned with Buyer. Seller commits itself to carry out this process exercising due care, containing all required preventive actions to avoid the aforementioned risks to Buyer. The process must also include the Seller's sub-suppliers. On request, Seller agrees to give Buyer insight into the risk management process, the applied methods, actions and results and commits itself to support surveys in connection with the risk evaluation and risk safeguarding.
- b. Any measurements necessary to avoid and mitigate the aforementioned risks, which are standard procedures in the industry, shall be borne by the Seller. Any financial contribution of Buyer to other measurements, which are not standard in the industry, need to be agreed with Buyer in advance. Costs in connection with the risk evaluation and risk safeguarding shall be borne by the respective party.

13. **IP Infringement Indemnification**

- a. Seller shall indemnify, defend and hold harmless Buyer, its officers, employees, agents, successors, assigns, customers and users of its products from and against any and all losses, expenses, damages, claims, suits and liabilities (including, without limitation, incidental and consequential damages, liquidated damages and contractual penalties, court costs, attorneys' and other professional fees, government imposed actions or liabilities) arising out of or relating to any claim that the manufacture, use, sale or resale of any Goods infringes any patent, utility model, industrial design, copyright, trademark, service mark, trade secret, know-how, or other intellectual property right in any country. Seller shall, when requested by Buyer, defend any action or claim of such infringement at its own expense. Seller's obligations under this Section 13 apply even though Buyer furnishes all or any portion of the design of or specifies all or any portion of the processing for the Goods. Seller expressly waives any defense or claim against Buyer that any such alleged infringement arose out of compliance with Buyer's specifications.
- b. If the sale and/or use of the Goods is enjoined or, in Buyer's sole judgment, is likely to be enjoined, Seller shall, at Buyer's election and Seller's expense, either procure for Buyer the right to continue using such Goods, or replace same with equivalent non-infringing goods, or modify such Goods so they become non-infringing, or remove same and refund the purchase price, including transportation, installation, removal and other charges incidental thereto.

14. **Changes**

- a. Buyer may at any time, by written notice to Seller, make changes, or require Seller to make changes, to drawings, designs, materials, specifications, sub-suppliers, samples or descriptions of Goods, and/or to time and place of delivery, packaging, or method of transportation. Seller shall promptly make any change requested by Buyer.
- b. In order for Seller to request a reasonable difference in price or time for performance as a result of such a change, Seller must notify Buyer of its request in writing within five (5) working days after receiving notice of the change. If Seller's claim includes any cost for property made obsolete as a result of the change, the claim must be supported by releases (or other forms of authorization) provided by Buyer authorizing Seller to procure or manufacture the property, and Buyer may prescribe the manner in which such property will be disposed. Buyer may request additional documentation from Seller relating to request for adjustments of the price or time for performance. After receiving all requested documentation, Buyer may, in its discretion, equitably adjust the price or time for performance; there shall be no automatic adjustment. Pending the resolution of any dispute regarding any adjustment to price resulting from any change by Buyer hereunder, Seller shall continue performing its obligations under the Order, including making the change by Buyer.
- c. Seller shall not make any changes relating to the Goods, including without limitation, changes in the material, content, design, specifications, manufacturing processes, packing, marking, shipping, pricing, delivery dates or places, or manufacturing location (including within Seller's site), except with Buyer's prior written approval.

15. **Force Majeure**

- a. Any delay of either Buyer or Seller to perform its obligations hereunder shall be excused if, and only to the extent that it is caused by, an event or occurrence beyond the reasonable control of the affected party and without its fault or negligence, including, without limitation, acts of God, actions by any governmental authority (whether valid or invalid), fires, floods, windstorms, explosions, riots, natural disasters, wars, sabotage or court injunction or order ("Force Majeure").
- b. Seller shall provide Buyer with prompt written notice of any delay due to Force Majeure (including a description of the cause of the event or circumstance, an estimate of the duration of the delay and a statement regarding the remedial steps that are being undertaken to resume performance and Seller's interim allocation plans, if any, for the supply of Goods during the delay). If requested by Buyer, Seller shall, within ten (10) days of the request, provide adequate assurances that such delay shall not exceed thirty (30) days. If the delay lasts more than thirty (30) days, or if Seller does not provide adequate assurance that the delay will cease within thirty (30) days, Buyer may immediately terminate the Order without liability.
- c. During the period of delay due to Force Majeure: (i) Buyer, at its option, may purchase similar goods from other sources and reduce its purchases of Goods from Seller by the delayed quantities, without liability to Seller, or have Seller provide the delayed quantities of the Goods from other sources at the price and on the other terms set forth in the Order; and (ii) Seller shall allocate all available quantities of the Goods (if any) by priority to Buyer.
- d. If, due to forces beyond its control, Buyer determines to alter Buyer's delivery schedule to delay delivery, the provisions of this paragraph (rather than the preceding paragraph) will control. Seller will hold any such delayed Goods at the direction of Buyer and will deliver them when the cause affecting the delay has been removed. Buyer will be responsible only for Seller's direct additional costs (excluding interest on the purchase price) incurred in holding the Goods or delaying performance at Buyer's request.

16. **Term of the Order**

Unless otherwise provided in the Order or in any other written agreement between Buyer and Seller, and without prejudice to any termination rights under these Terms and Conditions of Purchase, the term of the Order commences on the date set forth on the Order and continues until the end of production under the applicable OEM program(s) for which the Goods are supplied, including model refreshes or program extensions, as determined by the applicable OEM customer ("End of Production").

17. **Termination for Convenience**

- a. Buyer may terminate the Order at any time for its convenience by giving at least ten (10) days written notice to Seller.
- b. Upon receipt of notice of termination under this Section 17, and unless otherwise directed by Buyer, Seller shall: (i) promptly terminate all work under the Order on the effective date of termination set forth in the notice; (ii) transfer title and deliver to Buyer the finished Goods, the work in process, and the parts and materials that Seller reasonably produced or acquired according to the quantities firmly ordered by Buyer and that Seller cannot cancel or return without cost or use in producing goods for itself or for others; (iii) promptly stop subcontracting or ordering any material, service or facility under the Order; (iv) verify and settle any claims by Seller's subcontractors or sub-suppliers for actual and reasonable costs incurred directly as a result of the termination and ensure the recovery of materials in subcontractors' or sub-suppliers' possession; (v) take actions reasonably necessary to protect property in Seller's possession in which Buyer has an interest; and (vi) upon Buyer's request, cooperate with Buyer in any transition of supply of Goods to a different supplier pursuant to Section 19.
- c. Upon termination by Buyer under this Section 17, Buyer will pay to Seller only the following: (i) the Order price for all finished Goods in the quantities ordered by Buyer that conform to the Order for which Seller has not been paid; (ii) Seller's reasonable actual cost of merchantable and useable work-in-process and the parts and materials transferred to Buyer under Section 17(a)(ii) above; (iii) Seller's reasonable actual costs of settling claims regarding its obligations to its subcontractors or sub-suppliers required under the Order, to the extent directly caused by the termination, but limited to raw materials/components necessarily required in order to manufacture the quantities firmly ordered by Buyer and then currently outstanding; (iv) Seller's reasonable actual cost of carrying out its obligation under Section 15(a)(v) above; and (v) if applicable, amounts due in connection with transition of supply under Section 19.
- d. Notwithstanding any other provision in these Terms and Conditions of Purchase, Buyer's obligation upon termination under this Section 17 will be limited to the payments set forth in Section 17(b) above, and shall in no event exceed the obligation Buyer would have had to Seller in the absence of termination. In the event of a termination of the Order by Buyer as a result of Buyer ceasing to be a supplier to the customer for the program in respect of which Buyer issued the Order, Buyer shall only be obligated to compensate Seller for any costs under this paragraph if, and to the extent that the customer reimburses Buyer specifically for such costs.
- e. Seller shall furnish to Buyer, within one month after the date of termination (or such shorter period as may be required by Buyer's customer), any termination claim under this Section 17. Buyer may audit Seller's records before or after payment to verify amounts requested in Seller's termination claim.
- f. Buyer will have no obligation for payment to Seller under this Section 17 if Buyer terminates the Order for cause under Section 18. Any termination shall be without prejudice to any claims that Buyer may have against Seller.

18. **Termination for Cause**

- a. 19. **Transition of Supply**

- a. The parties acknowledge that the Goods represent components that will be incorporated into motor vehicles, railways, marine equipment, medical equipment, elevator equipment and other electronic equipment, and that any disruption in the supply of Goods would materially and irreparably harm Buyer and Buyer's customers, and that any re-sourcing of the Goods by Buyer to alternative supply sources would require significant time, effort, cost and resources. Accordingly, in the event the Order expires or is terminated, Seller agrees to cooperate in the transition of supply, including without limitation the following: (i) Seller shall continue production and delivery of all Goods as ordered by Buyer, at the prices and other terms stated in the Order as of the date of termination or expiration, without premium or other condition, for a period of twenty-four (24) months from the date of expiration or termination, or such longer period reasonably needed by Buyer to complete the transition to any alternate supplier(s) including, at Buyer's request, providing a sufficient stock of Goods covered by the Order, such that Seller's action or inaction causes no interruption in Buyer's ability to obtain Goods as needed; (ii) at no cost to Buyer, Seller shall promptly provide all requested information and documentation regarding and access to Seller's manufacturing process, including without limitation on-site inspections, bill-of-material data, tooling and process detail and samples of Goods and components; (iii) when requested by Buyer, Seller shall, at no cost to Buyer, return to Buyer

all Buyer's Property in as good condition as when received by Seller (reasonable wear and tear excepted); and (iv) Seller shall comply with Seller's obligations relating to Seller's Property in Section 25, and in relation to subcontracts.

- b. Seller acknowledges that the terms of this Section 19 are reasonable under the circumstances, and that if Seller asserts or claims that Seller may terminate the Order for any reason prior to the expiration of the Term, Seller will nonetheless perform its obligations under this Section 19, including its supply obligations under Section 19(a) above, except in the case where Seller's termination of the Order is based on Buyer's material breach of the Order (as finally determined by a court of competent jurisdiction following notice to Buyer and Buyer's reasonable opportunity to cure).

20. **Service and Replacement Parts**

- a. Seller shall supply to Buyer Goods necessary for Buyer to fulfill its current model service and replacement parts requirements at the prices and on the other terms set forth in the Order. - 2. Seller acknowledges that a material breach of its obligation to supply Goods in accordance with the Order or to transfer Buyer's Property or other bailed property to Buyer in accordance with the Order, including any Breach, would cause irreparable damage to Buyer, including without limitation damage to Buyer's relationships with its customers, suppliers, labor unions, lenders, and prospective future customers, the exact amount of which would be difficult to ascertain, and that the remedies at law and monetary damages for any such breach would be inadequate. Accordingly, in the event of any action taken or threatened by Seller hereunder that, if taken, would constitute a material breach of Seller's obligations under the Order, including any Breach, Buyer and its successors and assigns are entitled to injunctive or other equitable relief and/or a decree for specific performance, without the posting of any bond or other security, in addition to any other remedies it may have for damages or otherwise. Both parties are and shall be independent contracting parties. Neither party shall have the authority to create any obligations on behalf of the other party, unless otherwise provided in writing.
- 5. The parties acknowledge that it is their wish that these Terms and Conditions of Purchase and all documents relating thereto be in the English language only. The headings of the sections and paragraphs of these Terms and Conditions of Purchase are for reference only and shall not define or limit any of the terms or provisions hereof.
- 6. The failure of either party at any time to require performance by the other party of any provision of the Order will not affect the right to require performance at any later time, nor will the waiver of either party of a breach of any provision of the Order constitute a waiver of any later breach of the same or other provision of the Order.
- 7. The Order, together with the attachments, exhibits, supplements or other terms of Buyer specifically referenced therein, constitutes the entire agreement between Seller and Buyer with respect to the matters contained in the Order. The Order may only be modified: (i) by a written amendment executed by authorized representatives of each party; or (ii) for changes within the scope of Section 14, by a purchase order amendment issued by Buyer.

- 10. If one or more provisions of the Order, including these Terms and Conditions of Purchase should be or become invalid or unenforceable, the remaining provisions shall not be affected thereby and the balance of the agreement shall remain in full force and effect. In this event, the parties shall substitute the invalid or unenforceable provision by a valid one which as closely as possible achieves the economic purpose of the invalid or unenforceable provision.
