Continuing Education

Course Overview

The Critical Care Ultrasonography Review Course is a 6-hour review course held in partnership with the Society of Critical Care Medicine Northern California Chapter, led by Dawn Troeger MSN-Ed, RN, ACNP-BC. This course will educate attendees in the aspect of critical care ultrasonography and is designed to meet the needs of Intensivist, anesthesiologist, emergency physicians, acute care nurse practitioners and physician assistants who care for patients in any settings in which critical care is provided.

Learning Objective

1. Demonstrate understanding of knobology and basic sonography techniques.
2. Demonstrate proper use of ultrasonography for vascular access including knowledge of limitations and contraindications.
3. Demonstrate echocardiographic views for evaluation of RV and LV size and function, pericardial effusion and IVC examination.
4. Demonstrate pleural assessment for evaluation of pneumothorax, pleural effusion and thoracentesis.

Credit Hours

Physicians: The Society of Critical Care Medicine, Northern California Chapter is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians approved for 6 contact hours.

Nurses: The Critical Care Ultrasonography Review Course is presented by the SCCM Northern Chapter, a provider approved by the California Board of Registered Nursing. Provider number 00353, for 6 contact hours. Keep this certificate for a minimum of four years.
