Ms. Tracy & Ms. Arleen's Pre-K Class

Weather & Space

This week we introduced our space station. We built and decorated our very own spaceship which is what the astronauts use to travel to space. We introduced the children to the 8 planets, and even taught them a catchy song to remember the planets starting with the ones closest to the sun; Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and Neptune. We discussed how Meteorologists use space satellites to gather data about what is happening near Earth's surface. The satellites help collect data.

Letter S

We said hello to Ms. S this week, and her super socks! Sometimes Ms. S feels scared, and sometimes Ms S feels sad. Then she silently puts on her super socks, and suddenly she feels brave. We discussed that letter S can make 2 sounds; the "snake sound" and the "quiet (sh) sound". We created self-portraits and even created our own solar systems creations. One thing we loved about Ms. S was her super socks, which inspired us to wear our Silly Socks. The children enjoyed showing off and sharing their silly socks. It was a super week with Ms. S!

Looking Ahead

→ **Show & Share and Yellow Day** Thursday, January 31st

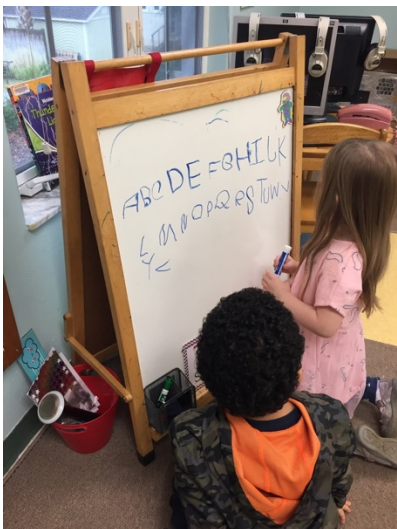

→ **Literacy Week** February 4-8th

→ Upcoming **Snack Helpers**:

-Week of 1/28 Ben

-Week of 2/4 Jack

A few photos from our week...

Trike-a-Thon
