BRAND STORY

HAERS was originally inspired from English word of "Health".

Since 1996, HAERS has been leading the vacuum bottling industry in design, manufacture, and distribution as well as promoting health and well-being.

Over last 20 years, Haers has established its trusted brand name among millions of consumers and consistently brings healthy and innovative drinkware solutions for global consumer needs. From vacuum insulated bottles, food containers, to heat-resistant borosilicate glass drinkware, all products are made by premium food-grade materials, are produced by World-class manufacturing technology and its facility.

Today, HAERS group company has become the world largest vacuum bottling manufacturer and innovator. At HAERS, we take pride to protect our planet by optimizing energy consumption and reducing industrial emission.

L I F E I S

OUR VISION

Optimizing energy consumption and promoting healthy lifestyle

OUR MISSION

Brings healthy and innovative drinkware solutions to the World with our special care in energy consumption and social responsibility

CORE VALUE

Health, Innovation, Eco-friendly and Reliability
