**ABOUT US**

**WHO WE ARE**

Our company was founded on the premise that sometimes beloved possessions must "Change Hands" and there should always be a way to benefit the original owner and help ease that transfer.

We pride ourselves with finding a creative solution for any and all situations. Anything from a fine art collection to a sensitive hoarding situation, we want to help.

**TESTIMONIAL**

*I have never made a public post on any product or company, until now. So with that being said, I feel very compelled to share what a wonderful and amazing experience I have had with this company the couple times I have dealt with them. I HIGHLY recommend them and promise you will NOT be disappointed.*
