

NEWLY REVISED BOARD POLICIES

At the end of the calendar year SKSD Board blasts out new revised policies typically when there is the lowest attendance at meeting and also at times when the meeting being held does not permit any public comments Wonder why?

These below policies were revised and unanimously approved on November 19, 2024, but only after the public comment period was done. We have suggested that they hold the public comments period to the end of the meetings so that all the stuff they do during the meetings can be commented on during that same meeting. They never tell us why they won't do that, not ever.

The board (new board like old board) still continues to only allow public comments once per month although they typically have two meetings per month. Wonder why they don't change that when they are asking for bond or levy money? Are they open to public feedback when they are asking for your money, not so much these days.

Here Are This Years (2024) Revised Policies:

Board of Distinction Evidence
