

WILDAX

MOTORHOMES

PULSAR

EVERYDAY DRIVE BUT BIG ENOUGH TO HOLIDAY IN

Fully Winterised Motorhome - insulated for sub-zero use. Wild Camping Ready - low power design maximises 12v systems for longer use without mains electricity.

WILDAX Pulsar

This motorhome is built as standard on the 6 speed manual Fiat Ducato 140Bhp, with an optional upgrade to the excellent 9 speed automatic gearbox. Full details are on our website.

The Pulsar is a true car replacement motorhome. Unlike many similar sized motorhomes the Pulsar comes equipped with a full kitchen, washroom and shower along with an adult sized double bed and 4 belted travel seats. The Pulsar also has loads of storage space for all your belongings with generous storage in the kitchen and large high level cupboards all round.

The rear travel seats slide in seconds to make up 2 single beds or a large double. They will also make into two sofas so that you can sit around the tables for a meal!

Dimensions
Length – 5.4m
Width – 2.05m (without mirrors)
Height – 2.65m (approx)

Vehicle Standard Specification

The 6 speed manual Fiat Ducato is a great quality vehicle giving more than enough power and very low emissions. Running costs are low with one of the best fuel economy figures on the market with figures reported in excess of 40 mpg by our customers.

The kitchen has a 3 burner hob, oven and grill with a good sized sink and 90 litre fridge/freezer. The kitchen also boasts lots of storage drawers for food and personal belongings. There is a tall wardrobe for hanging space. The Pulsar comes as standard with 2 side sliding doors to give a very car like feel when using the rear seats as travel seats.

As with the rest of the WildAx range the Pulsar is winterised as standard and has the Truma Combi 4e for heating and hot water. This van is only 5.4m long!
