

HOW TO APPLY YOUR VINYL STICKER

Step 1: CLEAN

Wipe the surface you are applying the sticker to with rubbing alcohol and allow to dry before application.

Step 2: PEEL

Use a squeegee/plastic ruler/old credit card to rub over the whole sticker, this is to ensure that the vinyl sticker adheres to the application tape. Then carefully peel off the white backing paper.

Step 3: APPLY

Place one side of your sticker on the surface while holding the rest away. Use a squeegee/plastic ruler/credit card to rub and smooth the sticker onto the surface.

Step 4: REMOVE

Slowly peel the application tape at a 45 degree angle. Only your sticker should remain.
