In-line
Digital Food Portioning Scale
SCL-032805

Supplier - Perfect Portions, LLC

Product Name - In-line digital food portioning scale

Model Number - SCL-032805

Intended use - The ultra-thin SCL-032805 is intended for use in deli style meal assembly environments to ensure proper portioning and to aid in strong cost control while eliminating the need for backroom prep time associated with portion control.

Main features - Patented bracket system allows for flexibility of placement along cutting boards. Adjustable brackets accommodate cutting boards measuring from 7.625 inches to 8.75 inches in width. Unique length of the scale allows for even distribution of food products along carriers such as bread or flatbread measuring up to 12 inches.

Weighing Platform - 1mm NSF food grade stainless steel platform

Base Material - Molded plastic

Display Type - 7 segment LCD in blue with flush mount screen overlay

Mounting brackets - Powder coated cold rolled SPCC in white

Units of measure - Oz or g with unit selector switch underneath the unit assembly

Tare function - Integrated quick tare on/off touch button

Power requirements - Two CR-2032 3V batteries

Capacity - 2lb, 907g

Certifications - FCC, CE, NSF Approved

Table Dimensions - L 12.125 inches x W 7.812 inches

Scale Height - 0.58 inches

Shipping Weight - 1.61lb

Warranty - One year limited warranty
