7 Stages of Grief

(Modified Kubler-Ross Model)

Shock*	• Initial paralysis at hearing the bad news.
Denial	• Trying to avoid the inevitable.
Anger	• Frustrated outpouring of bottled-up emotion.
Bargaining	• Seeking in vain for a way out.
Depression	• Final realization of the inevitable.
Testing*	• Seeking realistic solutions.
Acceptance	• Finally finding the way forward.

* This model is extended slightly from the original Kubler-Ross model, which does not explicitly include the Shock and Testing stages. These stages however are often useful to understand and to facilitate change.

The Sri Yantra depicted in Hindu & Buddhist mandalas is a tetrahedral 3D structure, which completed is a Flower of Life that has the chakratic Tree of Life to represent the 5 pointed Star of David inside the tetrahedral merkaba. When the rainbow body of enlightenment is activated, this black hole emitting out of your heart chakra depicted as auratic metta circles & halos accessed from within your consciousness spins in a golden spiral to propel you into your desires parallel reality, dimension, & activate dormant 6th senses unique to your DNA that matches the frequency you previously emitted out into the universe back to you the creator as reflected projections to be experienced in a series of NOW moments. Many spiritual traditions use sacred geometry as symbolic records explaining basic metaphysics (quantum physics). Art is an encrypted record keeping tool hidden in plain sight that supersedes egocentric consciousness. You can see the big picture & instructions when you go above semantics of duality consciousness (moon/sun, yinyang) & unify similarities in all relevant traditions.
