

HIGHLIGHTS:

WHO; Elkhart

WHERE; Bremen

Defense; Outfield is becoming a strength for the team, WHY all the outfielders play infield also. Once they got use to covering more ground they are now throwing rockets to bases (like infielders)

Example; Caleb in center to shortstop Carson to Brock at third for a tag out.

Example; Logan W. in center to Logan K. at second for another tag out.

PLUS; Brodie in left- hard charge and dive for a catch.

Plus/plus Oliver backing up first base on an overthrow to keep the runner there.

Offence; Why do I categorize B.I.P. = Examples; Caleb and Elijah

Caleb put 3 B.I.P. for a 1 RBI

Elijah put 3 B.I.P. for 3 RBI's

WE WIN BY 1 RUN that is why B.I.P. are important.

Plus Jo's 2 doubles (that never hurts)

Pitching ==== depth, that's what kept us in the game, never overusing any All-stars arms.

Game stats: new category is B.I.P. (Ball In Play) This category shows how many times an All-star hit the pitch in fair territory; this could be a hit, a sac. an out, a fielder's choice, or a defensive error. (GW=game winner).
