

Learn how to download apps and games

using the App Store

www.apple.com

- type in the search bar “how to download apps”
- click on “Download apps and games using

the App Store” <https://support.apple.com/en-us/HT204266>

This page discusses “Browse and Buy.” First, you will need an Apple ID. This is the account that you use to access Apple services. If you’ve used other Apple services like iCloud, sign in to the App Store with the SAME APPLE ID. If you don’t have an Apple ID, this page will show you how to create one.

You can browse and buy apps on your iPhone, iPad, iPod touch, on your Mac, or on your Apple TV.

If you’re in the App Store and see near an app, it means you already downloaded that app. If you click on that symbol, the app downloads to your device again, but doesn’t charge you. You can also see apps you’ve already

purchased on the “Updates or Purchased apps.”

Download apps and games using the App Store - Apple Support

On your iPhone, iPad, or iPod touch

Open the App Store on your iPhone, iPad, or iPod touch to browse apps.

- Tap Today to see featured stories and apps.
- Tap Games or Apps to see new releases, top charts, or browse by category.
- Tap Search to use a keyword to find an app.

When you find an app that you want, download it to your device:

1. Tap on the app to view the app's product page.
2. To get a free app, tap Get.
To buy an app, tap the price.
3. You might need to authenticate your Apple ID to complete your download or purchase. This might mean entering your password, or using [Touch ID](#) or [Face ID](#) if you have them set up.

After your app finishes downloading, you can [move it to a different spot on your Home screen.](#)

Some apps let you make additional purchases within the app. If you set up [Family Sharing](#), you can [use Ask to Buy](#) to help control app downloads and in-app purchases. Learn more [about in-app purchases.](#)
