

# Pikes Peak Respite Services November 2020 Newsletter

## WHY THE TRAINING?

The state of Colorado requires that ALL providers complete training. Yes parents, this includes you.

The number one complaint in the past has been that providers did not have enough training. The training requirements are the states solutions and PPRS is proud to be compliant and lead the way in education.

### WHAT IS HFW??

HFW is an individualized, culturally-responsive process that is used to coordinate care and build self-efficacy for families with complex needs. This approach addresses the family's prioritized needs, meets all system mandates, and coordinates all the family's services in one plan.
