

Tuberculous (TB) Skin Testing Locations

TB testing is required for employment with PPRS before the background check. Many urgent care facilities offer this testing. The most cost-effective test to ask for is the Skin TB test. After the test is administered you will be required to return to have the results read within 48-72 hours. If you have had an x-ray test it is valid for 5 years. Below are some skin testing locations. Please call ahead to ensure pricing and times are current.

<i>Any Lab Test Now</i>	Cost	Scheduling	Hours of Operation
