

Press Release MWS

Maximilian Wolfgang Schwarz (*1997 in Vienna) is one of the most versatile percussionists of his generation. The multi-award-winning multi-percussionist and drummer has been performing on major international stages for many years, either as a soloist or as a guest with renowned ensembles such as Elbtoneal Percussion or the CBPercussion Group at spectacular festivals and projects. In addition to selected works of contemporary classical music, his constantly growing solo repertoire primarily includes his own compositions. Max Schwarz cultivates a hybrid compositional style consisting of classical compositional approaches from different eras and cultures, his own serial concepts and electronic production. His avant-garde pieces are published by Edition Svitzer (Copenhagen); he also regularly produces for television, film and theatre.

As part of the jury of the 'Stellar Composition Competition' (2nd prize for Constellations I), percussion luminary Dame Evelyn Glennie praised the piece with the following words: 'It's the best piece I have ever come across that explores sound effects on the marimba in a really musical way. It is the essence of the piece rather than an 'addition'. Maximilian is absolutely superb and the video work is really well done.'

As a drummer, he fuses driving grooves, elements from world music and complex polyrhythms with live electronics. With this characteristic style, he is part of the world music/electronica trio maTrigal. Max Schwarz is currently studying classical percussion with Prof. Alexej Gerassimez at the University of Music and Performing Arts Munich in the postgraduate programme 'Excellence in Performance'. In 2023/2024 he toured Germany, Austria, Italy, France and Spain.
