Please allow 1-2 cms tolerance +/- from the measurements provided.

How to Use the Size Guide

For T-shirt measurement:

- A well-fitting shirt should be laid flat on a firm surface with all wrinkles removed.
- The Half Chest should be measured 2 cm below the armhole, straight across from side seam to side seam.
- The length should be measured from the highest point of the shoulder (next to the collar) straight down to the bottom hem on the front of the T-shirt.
- The measurements should be matched to the size chart, and the closest size should be selected from the **Size Category**.

For Pant Size measurement:

- Waist Measurement is to be taken from your body using your belly button as a guide.
- Length is from the waistband to the bottom hem when laid flat.
- The measurements should be matched to the size chart, and the closest size should be selected from the **Size Category**.
