

The Captain presents a cheque to his personal charity.

The Society's Charity.

Thanks to members continued support of our charity fund we were once again able to present cheques to 3 very worthy causes. As you all know it is **The Society's aim to offer support to disabled and disadvantaged children in the county of Kent.**

In the photo to the left. Peter Skipper our Captain presents a cheque for £750 to his personal charity, [The](#)

[Thanet Disabled Riding Centre](#). It is a small charity based in the grounds of Maurice house, established for over 40 years, specialising in the riding for disabled children (and adults). They ride over 30 children a week with the support of an amazing group of volunteers.

Our Charity Representative Phil Draper accompanied The Captain to [The 3H Foundation](#) Where they presented a cheque for £1500. The Foundation provides help and funding for holidays for children and parents who are unable to cover the costs themselves. The children usually need expert care and attention this is a very worthwhile cause. We have no doubt that will make full use of the funds you have provided.

The Captain presents a cheque to The 3H Foundation.

The Society has also supported a 13 year old young man called Harrison with a similar donation of £1500. Once again our Charity Representative Phil Draper accompanied The Captain made who this donation personally on behalf of our members.

[1p36 deletion syndrome](#) means a large piece of Harrison's chromosome is missing, which in turn causes a number of problems such as non verbal communication, low mobility and also it means

he has no directional function, it also reduces his mental age considerably.

Our donation will go some way to providing a hydrotherapy pool as well as other equipment which

will not only benefit Harrison but also other children with this problem.
